

# Seater with Crimp 7/8 - Seater with Crimp 222 Rem Mag

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Seater with Crimp 7/8 Seater with Crimp 222 Rem Mag

## Introduction

Thank you for choosing the Seater with Crimp 7/8 Seater with Crimp 222 Rem Mag. This product is designed to provide you with a reliable and efficient way to seat bullets while ensuring safety during use. Please read this safety instruction guide carefully to understand the proper usage, precautions, and maintenance of your product.

## General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always use the product in a wellventilated area.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when operating the product.
- Report any unsafe conditions or incidents to the relevant authorities.

## Specific Safety Precautions for Use

- Always check that the seaterhead is securely attached before use.
- Avoid using excessive force when seating bullets; this may lead to misalignment or damage.
- Ensure that the cartridge case is clean and free of debris before seating.
- Do not exceed the recommended load specifications for the bullets being used.
- If you notice any unusual sounds or resistance during operation, stop using the product immediately and inspect it for issues.
- Store the product in a dry and secure location when not in use.

## Instructions for Installation and Usage

### 1. Installation of the Seater Head

- Ensure the reloading press is turned off and unplugged.
- Remove the old seater head by unscrewing it from the press.
- Select the appropriate seater head for your bullet type.
- Screw the new seater head securely into place.

### 2. Preparing for Use

- Gather all necessary materials, including bullets, cartridge cases, and powder.
- Check that the bullet seater is clean and free from obstructions.

### 3. Seating the Bullet

- Insert a cartridge case into the reloading press.
- Place the bullet into the mouth of the cartridge case.
- Engage the press handle to seat the bullet. Ensure that the bullet is seated to the correct depth.
- If crimping is desired, adjust the seater to apply a crimp to the cartridge case mouth.

### 4. PostUse Maintenance

- After use, clean the seater head and press to remove any residue.
- Store the product in a safe, dry place.

## **Disposal Instructions**

- Dispose of any unused materials, such as bullets and cartridge cases, in accordance with local regulations.
- The product itself should be disposed of in a manner that minimizes environmental impact. Check with local waste management authorities for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the Seater with Crimp 7/8 Seater with Crimp 222 Rem Mag, please refer to the product manual or contact your local distributor for assistance.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Seater with Crimp 7/8 Seater with Crimp 222 Rem Mag. Thank you for your attention to safety.
