Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Seater with Crimp 7/8 and 6mm PPC

## Introduction

Thank you for choosing the Seater with Crimp 7/8 and 6mm PPC. This product is designed to provide a reliable and accurate method for seating bullets in cartridge cases. To ensure safe and effective use, it is important to follow the safety guidelines and instructions outlined in this guide.

## General Safety Guidelines

- **Product Safety:** This product has been designed to ensure safe usage. Always handle it with care and follow the instructions provided.
- **Enhanced Recalls:** In the event of a product recall, you will be notified through standardized notices. Always check for updates regarding your product.
- **Online Shopping:** If purchased online, this product is subject to the same safety regulations as those bought in physical stores.
- **Special Consumer Focus:** Extra care should be taken to keep this product out of reach of children to prevent accidents.
- **EU Contact Point:** For any safety inquiries, please refer to the designated EU contact point provided by the manufacturer.
- **Rapid Alerts:** Stay informed about any unsafe products through the EU Safety Gate system.

## Specific Safety Precautions for Use

- **Read All Instructions:** Before using the product, read all instructions and safety information carefully.
- **Wear Protective Gear:** Always wear appropriate safety gear, such as safety glasses and gloves, when handling ammunition and reloading equipment.
- **Check for Damage:** Inspect the product for any signs of damage or wear before use. Do not use if damaged.
- **Use in a Safe Environment:** Ensure that you are in a wellventilated area and away from flammable materials when using the product.
- **Keep Out of Reach of Children:** Store the product in a secure location, away from children and pets.
- **Avoid Overloading:** Do not exceed the recommended specifications for bullet seating and crimping.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that your reloading press is securely mounted and stable.
- Attach the seater head to the press according to the manufacturer's instructions.
- Adjust the seating depth according to the specifications of the bullet being used.

### 2. Usage:

- Place the cartridge case in the press.
- Insert the bullet into the case mouth.
- Operate the press to seat the bullet. Ensure that the bullet is seated to the desired depth.
- If crimping is desired, adjust the crimping feature as per the instructions to secure the bullet in place.
- After seating and crimping, visually inspect the cartridge to ensure proper seating and crimping.

### 3. Maintenance:

- Regularly clean the seater head and surrounding areas to prevent buildup of debris.
- Store the product in a dry place to prevent rust and corrosion.

## Disposal Instructions

- **Disposal of Product:** When the product has reached the end of its life, dispose of it responsibly. Check local regulations for proper disposal methods of reloading equipment.
- **Recycling:** If possible, recycle parts of the product that can be recycled according to local guidelines.

## Contact Information for Further Support

For further assistance, please refer to the manufacturer's contact information provided with this product. Always reach out for support if you have questions or concerns regarding the use and safety of the Seater with Crimp 7/8 and 6mm PPC.

By following these guidelines, you can ensure a safe and effective reloading experience. Thank you for your attention to safety and for choosing our product.
