Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Seater with Crimp 7/8

## Introduction

Thank you for choosing the Seater with Crimp 7/8. This product is designed for safely seating bullets with the option to crimp the cartridge case. It is essential to follow all safety instructions and guidelines to ensure safe and effective use.

## General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, such as eye protection, when using this product.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the equipment for any signs of wear or damage before use.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Only use the Seater with Crimp 7/8 with compatible cartridges.
- Ensure that the bullet is properly aligned in the guide bushing before seating.
- Do not exceed the recommended seating depth to avoid dangerous pressure levels.
- Always use the crimp option when specified for the type of bullet being seated.
- Avoid using the product in wet or damp conditions to prevent electrical hazards.
- Follow all local laws and regulations regarding the use of reloading equipment.

## Instructions for Installation and Usage

### 1. Installation:

- Securely attach the Seater with Crimp 7/8 to your reloading press using the threaded connection.
- Ensure the product is tightly fastened and stable before beginning operations.

### 2. Usage:

- Select the appropriate seaterhead for the bullet being used. This can improve concentricity.
- Insert the bullet into the guide bushing of the seater.
- Adjust the seating depth according to the specifications for the bullet and cartridge.
- Operate the reloading press to seat the bullet. Monitor closely for any irregularities during the process.
- If crimping, ensure the crimping feature is engaged as per the requirements of the cartridge being used.

### 3. PostUsage:

- After use, clean the Seater with Crimp 7/8 to remove any debris or residue.
- Store the product in a dry, secure location away from children and unauthorized users.

## Disposal Instructions

- Dispose of any packaging materials in accordance with local recycling regulations.
- If the product is no longer usable, follow local guidelines for the disposal of metal and plastic.

components.

## **Contact Information for Further Support**

For any inquiries or issues regarding the Seater with Crimp 7/8, please consult the product manual or reach out to your point of purchase for assistance.

By following these safety instructions, you can ensure a safe and effective reloading experience with the Seater with Crimp 7/8. Always prioritize safety and compliance with relevant regulations.
