Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 7/8

Introduction

Thank you for choosing the Seater with Crimp 7/8. This product is designed for precision bullet seating, ensuring accuracy and reliability. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling the product.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Follow all local regulations regarding the handling and use of ammunition components.

Specific Safety Precautions for Use

- Always ensure that the bullet seating die is properly installed in your reloading press before use.
- Do not exceed the recommended load data for the bullets you are using.
- Use only compatible bullet types with the seater head to ensure proper seating and crimping.
- Avoid using excessive force when seating bullets to prevent damage to the bullet or the die.
- Be aware of the potential hazards associated with reloading ammunition, including the risk of explosion and injury.

Instructions for Installation and Usage

1. Installation of the Seater with Crimp:

- Ensure your reloading press is securely mounted and stable.
- Remove any existing seating die from the press.
- Carefully screw the Seater with Crimp into the press using the 7/8 thread.
- Tighten securely but do not overtighten, as this may cause damage.

2. Using the Seater:

- Select the appropriate seater head for the bullet you are using.
- Insert the bullet into the cartridge case.
- Adjust the seating depth as per your specifications.
- Slowly pull the handle of the press to seat the bullet.
- If crimping is desired, adjust the die to achieve the desired crimping depth.

3. PostUse:

- After use, clean the die to remove any residue or debris.
- Store the product in a dry and secure location.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Instead, contact local waste management for

guidance on proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the Seater with Crimp 7/8, please consult the manufacturer's manual or contact your local distributor.

By following these safety guidelines and instructions, you can ensure a safe and effective experience with your Seater with Crimp 7/8. Always prioritize safety and consult professionals if you have any doubts or questions regarding the use of this product.
