Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 7/8

Introduction

Thank you for choosing the Seater with Crimp 7/8. This product is designed to provide a reliable and efficient way to seat bullets for reloading cartridges. To ensure your safety and the proper functioning of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate safety gear, such as safety glasses and gloves, when handling reloading equipment.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for any signs of wear or damage before use.
- If you notice any irregularities or malfunctions, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- Always work in a wellventilated area to avoid inhalation of any dust or fumes.
- Do not exceed the recommended load specifications for the bullets and cartridges.
- Be cautious when handling live ammunition and ensure that the work area is free from distractions.
- Use only compatible seaterheads designed for the specific bullet type you are using to maintain accuracy and safety.
- Ensure that the crimping operation is performed correctly to prevent bullet setback or excessive pressure.

Instructions for Installation and Usage

1. Installation of the Seater Head:

- Ensure that the reloading press is turned off and unplugged.
- Remove the existing seater head by loosening the set screw.
- Select the appropriate seater head for your bullet type.
- Insert the new seater head into the press and tighten the set screw securely.

2. Seating the Bullet:

- Place a cartridge case into the shell holder of the reloading press.
- Insert the bullet into the case mouth, ensuring proper alignment.
- Operate the press handle smoothly to seat the bullet to the desired depth.
- If crimping is required, adjust the crimping mechanism accordingly and repeat the process.

3. PostUsage Care:

- Clean the product after each use to remove any residue or debris.
- Store the product in a dry, cool place, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Recycle packaging materials where possible.

- Do not dispose of the product in household waste unless it is confirmed to be nonhazardous.

Contact Information for Further Support

For further assistance or inquiries regarding safety concerns, please refer to the product manual or reach out to your retailer for guidance.

By following these safety instructions, you can ensure a safe and effective reloading experience with the Seater with Crimp 7/8. Always prioritize safety and remain informed about best practices in reloading.
