Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 7/8

Introduction

Thank you for choosing the Seater with Crimp 7/8. This product is designed for precise bullet seating and crimping, ensuring optimal performance and accuracy in your reloading processes. It is important to follow safety guidelines to ensure safe use and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always handle the Seater with Crimp 7/8 with care and ensure it is used in a safe environment.
- Inspect the product for any visible damage before use. Do not use if damaged.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose as described in this guide.
- Report any unsafe conditions or accidents to the relevant authorities.
- Regularly check for product recalls and safety updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Risk of injury from improper handling or use.
 - Risk of cartridge case damage if crimping is not done correctly.
- **Avoiding Hazards:**
 - Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the product.
 - Ensure that the work area is clean and free of obstructions.
 - Do not exceed the recommended specifications for bullet seating and crimping.
 - Always follow the manufacturer's instructions for selecting the correct seater head to improve concentricity and accuracy.
 - Ensure the seaterhead is securely attached before use.

Instructions for Installation and Usage

1. Installation:

- Securely mount the Seater with Crimp 7/8 in a stable reloading press.
- Ensure that the press is properly set up and functioning before attaching the seater.
- Choose the appropriate seater head for the bullet type you are using. Follow the manufacturer's instructions for replacing the seater head if needed.

2. Usage:

- Place the cartridge case into the reloading press.
- Insert the bullet into the case mouth.
- Adjust the seater to the desired depth for bullet seating.
- If crimping is required, adjust the crimping mechanism accordingly.
- Slowly and steadily operate the reloading press to seat the bullet and apply the crimp, if necessary.
- After use, clean the seater and store it in a safe place.

Disposal Instructions

- Dispose of any packaging materials in accordance with local recycling regulations.
- If the product is no longer usable, follow local guidelines for disposing of metal and plastic components.
- Do not dispose of the product in regular household waste.

Contact Information for Further Support

For any questions or concerns regarding the Seater with Crimp 7/8, please consult the product manual or contact your retailer for assistance. Always ensure that you are using the product in accordance with the safety guidelines outlined in this document.

Thank you for your attention to safety and for choosing our product. Enjoy your reloading experience!
