Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

NO IMAGE  
AVAILABLE

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

## Attributes

# Safety Instruction Guide for Seater with Crimp 7/8

## Introduction

Thank you for choosing the Seater with Crimp 7/8. This guide provides essential safety instructions and information to ensure the safe and effective use of this product. Please read this manual carefully before using the product to prevent accidents and ensure optimal performance.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose as outlined in this manual.
- Always wear appropriate safety gear, including eye protection, when using the product.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for wear and tear. Do not use if any parts are damaged.
- Familiarize yourself with the product components and their functions before use.
- Follow all local laws and regulations regarding the use of reloading equipment.

## Specific Safety Precautions for Use

- Use the Seater with Crimp only with compatible cartridges as specified in the product documentation.
- Ensure that the bullet seating depth is set correctly to avoid overseating or underseating the bullet.
- Always check the crimping function before use to ensure it is set correctly.
- Do not modify the Seater with Crimp in any way. Unauthorized modifications can lead to malfunction or accidents.
- If you experience any difficulties or malfunctions, cease use immediately and consult the manual or a qualified technician.

## Instructions for Installation and Usage

### 1. Installation

- Ensure that your reloading press is securely mounted and stable.
- Remove any existing seating dies from the press.
- Insert the Seater with Crimp into the press according to the manufacturer's instructions.
- Tighten the locking mechanism to secure the seater in place.

### 2. Usage

- Prepare your cartridge cases and ensure they are clean and free from debris.
- Adjust the seaterhead for the bullet type you are using. Refer to the manual for guidance on selecting the correct head.
- Place a cartridge case in the press and raise the ram to the top position.
- Insert the bullet into the case mouth, ensuring it is aligned properly.
- Lower the ram slowly to seat the bullet. Monitor the seating depth as you proceed.
- If crimping is desired, adjust the crimping feature according to your specifications.
- Repeat the process for additional cartridges, ensuring consistency in seating depth and crimp.

## Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for local recycling programs that accept metal and plastic components.

- Ensure that all safety precautions are followed when disposing of any hazardous materials associated with reloading.

## **Contact Information for Further Support**

For any questions or concerns regarding the Seater with Crimp 7/8, please refer to the manufacturer's contact information provided in the product packaging or manual. It is important to have access to support for any safety inquiries or product issues.

## **Conclusion**

By following these safety instructions, you can ensure that your experience with the Seater with Crimp 7/8 is safe and productive. Always prioritize safety and compliance with regulations during use. Thank you for your attention to these important guidelines.
