

# Seater with Crimp 7/8 - Seater with Crimp 6,5-284 Norma

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Seater with Crimp 7/8 and Seater with Crimp 6,5284

## Introduction

Thank you for choosing the Seater with Crimp 7/8 and Seater with Crimp 6,5284. This manual provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this guide carefully before use.

## General Safety Guidelines

- Ensure that you are familiar with the product and its components before use.
- Always wear appropriate safety gear, such as safety glasses and gloves, when operating the seater.
- Keep the work area clean, organized, and free from distractions.
- Do not operate the product if you are tired or under the influence of drugs or alcohol.
- Store the product in a secure location out of reach of children and unauthorized users.
- Regularly inspect the product for any signs of damage or wear. Do not use if damaged.
- Follow all local laws and regulations regarding the use of reloading equipment.

## Specific Safety Precautions for Use

- Ensure that the bullet seater is compatible with the bullet and cartridge case you are using.
- Always use the correct seater head for the bullet type to improve concentricity and accuracy.
- Do not exceed recommended load data when seating bullets.
- When crimping, ensure that the crimp is applied evenly to avoid bullet setback or case deformation.
- Avoid placing your fingers near the bullet seating area while the seater is in operation.
- If you experience any difficulty during operation, stop and inspect the equipment before proceeding.

## Instructions for Installation and Usage

### 1. Installation

- Securely mount the bullet seater to your reloading press following the manufacturer's instructions.
- Ensure that the seater is tightened properly to avoid movement during operation.
- Select the appropriate seater head based on the bullet type you are using and install it according to the manufacturer's guidelines.

### 2. Usage

- Adjust the seating depth as required for your specific cartridge.
- Insert the cartridge case into the reloading press.
- Place the bullet into the case mouth, ensuring it is properly aligned.
- Activate the press to seat the bullet, applying consistent pressure.
- If crimping is desired, adjust the seater to apply the crimp after the bullet is seated.
- Inspect the completed cartridge for proper seating and crimping before loading.

## Disposal Instructions

- Dispose of any used or damaged components in accordance with local waste disposal regulations.
- Do not dispose of the product or its components in household waste.
- Consider recycling options for metal parts whenever possible.

## **Contact Information for Further Support**

For any questions or concerns regarding the Seater with Crimp 7/8 and Seater with Crimp 6,5284, please refer to the manufacturer's manual or contact the manufacturer directly for assistance.

## **Conclusion**

By following these safety guidelines and instructions, you can ensure a safe and effective experience with the Seater with Crimp 7/8 and Seater with Crimp 6,5284. Always prioritize safety and take the necessary precautions when using reloading equipment. Thank you for your attention to these important safety measures.
