Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

NO IMAGE  
AVAILABLE

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Seater with Crimp 7/8 Seater with Crimp 260 Rem

## Introduction

Thank you for choosing the Seater with Crimp 7/8 Seater with Crimp 260 Rem. This product is designed to provide precise bullet seating and crimping for your reloading needs. To ensure your safety and the effective use of this product, please read this safety instruction guide carefully.

## General Safety Guidelines

- Always use the product in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Do not use the product if it appears to be damaged or malfunctioning.
- Report any unsafe conditions or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Ensure that you are familiar with the operation of the bullet seating process before starting.
- Wear appropriate safety gear, including eye protection, when using the product.
- Do not exceed the recommended load specifications for the cartridges being used.
- Avoid distractions while using the product to maintain focus and precision.
- Store the product in a dry, cool place when not in use to prevent deterioration.

## Instructions for Installation and Usage

### 1. Installation of the Seater Head

- Ensure that the reloading press is securely mounted and stable.
- Remove the existing seater head by loosening the retaining screw.
- Align the new seater head with the press and secure it by tightening the retaining screw.

### 2. Seating the Bullet

- Insert the cartridge case into the shell holder of the reloading press.
- Place the bullet into the case mouth, ensuring it is properly aligned.
- Pull the handle of the press to seat the bullet. Ensure a smooth and steady motion.

### 3. Crimping the Cartridge

- If crimping is desired, adjust the seater head to the crimping position as per the manual.
- Pull the handle again to apply the crimp to the cartridge case mouth.

### 4. Final Inspection

- After seating and crimping, visually inspect the cartridge for proper bullet seating and crimping.
- Ensure that the bullet is seated to the correct depth and that the crimp is uniform.

## Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the product in regular household waste.

- Check with local waste management authorities for proper disposal methods for metal and plastic components.

## **Contact Information for Further Support**

For further assistance, please refer to the product manual or contact the manufacturer directly. Ensure you have the product details ready for a more efficient response.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities. Enjoy using your Seater with Crimp 7/8 Seater with Crimp 260 Rem responsibly and safely.
