

Seater with Crimp 7/8 - Seater with Crimp 7x57

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 7/8

Introduction

Thank you for choosing the Seater with Crimp 7/8. This product is designed for precision bullet seating and crimping. This guide provides essential safety instructions to ensure safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Always read and understand the instructions before use.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves during operation.
- Report any unsafe product conditions or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Always ensure the bullet seater is securely attached to the reloading press before use.
- Do not exceed the recommended pressure limits when seating bullets.
- Avoid using the product in wet or damp conditions to prevent electrical hazards.
- Do not attempt to modify the product in any way.
- Ensure that the workspace is clean and free of obstructions to prevent accidents.
- Always follow the manufacturer's guidelines for bullet types and seating depths.

Instructions for Installation and Usage

1. Installation

- Ensure the reloading press is turned off and unplugged.
- Remove any existing seater head from the press.
- Align the Seater with Crimp 7/8 with the mounting point on the press.
- Securely fasten the seater head to the press using the provided locking mechanism.

2. Usage

- Select the appropriate bullet type and ensure it matches the specifications of the seater head.
- Adjust the seating depth according to the manual instructions.
- Place a cartridge case into the press and insert the bullet into the case mouth.
- Engage the press handle slowly to seat the bullet.
- If crimping is required, adjust the crimp setting on the seater head as per the manual.
- Inspect the seated bullet for proper alignment and depth.

Disposal Instructions

- Dispose of the Seater with Crimp 7/8 in accordance with local regulations.
- Do not dispose of the product in household waste.
- Check with local recycling centers for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding product safety, usage, or support, please consult the manufacturer's website or customer service resources.

By following these safety instructions, you can ensure a safe and effective experience with your Seater with Crimp 7/8. Thank you for prioritizing safety in your reloading activities.
