Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Seater with Crimp 7/8 Safety Instruction Guide

## Introduction

Thank you for choosing the Seater with Crimp 7/8. This product is designed for safely seating bullets with the option to crimp the mouth of the cartridge case. To ensure your safety and the proper functioning of the product, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Always ensure that the Seater is used in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the Seater for any signs of wear or damage before use.
- Use the Seater only for its intended purpose as outlined in this manual.
- In case of a malfunction or if you suspect the product is unsafe, cease use immediately and seek assistance.

## Specific Safety Precautions for Use

- Ensure that the work area is clean and free of obstructions.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves.
- Do not exceed the recommended specifications for bullet types and cartridge cases.
- Maintain a safe distance from others while using the Seater.
- Avoid distractions while operating the Seater to prevent accidents.
- Be cautious of sharp edges and moving parts during operation.

## Instructions for Installation and Usage

### 1. Installation

- Ensure that the Seater is compatible with your reloading setup.
- Securely attach the Seater to the reloading press according to the manufacturer's specifications.
- Check that all components are properly aligned and tightened before use.

### 2. Usage

- Load the cartridge case into the Seater.
- Insert the bullet into the cartridge case.
- Adjust the seaterhead as needed for the specific bullet type being used.
- If crimping is desired, adjust the crimping mechanism accordingly.
- Activate the reloading press to seat the bullet firmly in place.
- Inspect the seated bullet for proper alignment and crimping.

## Disposal Instructions

- Dispose of any unused or damaged products in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of the product in regular household waste if it is considered hazardous.

## Contact Information for Further Support

For any safety inquiries or assistance regarding the Seater with Crimp 7/8, please refer to the manufacturer's contact information provided in the product packaging or manual.

## Conclusion

By following these safety guidelines and instructions, you can ensure a safe and effective experience with your Seater with Crimp 7/8. Always prioritize safety and stay informed about best practices for using reloading equipment. Thank you for your attention to these important safety measures.
