

Seater with Crimp 7/8 - Seater with Crimp 270 Wea Mag

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 7/8

Introduction

Thank you for choosing the Seater with Crimp 7/8. This product is designed for precision bullet seating and crimping, ensuring accuracy and reliability in your reloading process. To ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR), please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that you read and understand all instructions before using the Seater with Crimp.
- Use the product only for its intended purpose: seating and crimping bullets for ammunition.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the Seater for any signs of wear or damage before use.
- Always wear appropriate protective equipment, such as safety glasses, when operating the product.
- Be aware of your surroundings and ensure that you are in a safe environment when using the Seater.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Potential for injury if the product is used incorrectly.
 - Risk of damage to the cartridge if the crimping is applied improperly.
- **Avoiding Hazards:**
 - Always ensure that the bullet is properly aligned in the guide bushing before seating.
 - Do not attempt to modify or alter the product in any way.
 - Use only compatible bullet types with the Seater to avoid malfunction.
 - Follow the manufacturer's guidelines for the correct use of the seaterhead.
- **AgeSpecific Warnings:**
 - This product is intended for use by adults only. Keep away from children.

Instructions for Installation and Usage

1. Installation:

- Ensure that the Seater with Crimp is securely mounted to a stable reloading press.
- Confirm that the thread size is 7/8 to match the press specifications.
- Check that the seaterhead is correctly installed and locked in place.

2. Usage:

- Select the appropriate seaterhead based on the bullet type being used.
- Insert the bullet into the cartridge case and place it in the guide bushing.
- Gently pull the handle to seat the bullet to the desired depth.
- If crimping is required, continue to pull the handle until the crimp is securely applied to the mouth of the cartridge case.

- Inspect the seated bullet for proper alignment and crimping before use.

3. PostUsage Care:

- Clean the Seater with a soft cloth after each use to remove any debris or residue.
- Store the Seater in a dry, safe place when not in use.

Disposal Instructions

- Dispose of the Seater with Crimp in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Check for any recycling programs that may accept reloading tools.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the Seater with Crimp, please refer to the manufacturer's contact details provided in the product manual or packaging.

Thank you for prioritizing safety in your reloading practices. Enjoy the precision and performance of your Seater with Crimp 7/8.
