Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 7/8

Introduction

Thank you for choosing the Seater with Crimp 7/8. This product is designed for precision bullet seating and crimping. To ensure your safety and the effective use of this product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as described in the manual.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Use protective eyewear and gloves when handling and operating the product.
- Store the product in a dry and secure location when not in use.
- Be aware of your surroundings and ensure that no one is in proximity when using the product.

Specific Safety Precautions for Use

- Always follow the manufacturer's instructions for installation and use.
- Avoid using the product if you are tired or under the influence of drugs or alcohol.
- When replacing the seaterhead, ensure that it is securely fastened before use.
- Use only compatible seaterheads as recommended by the manufacturer to maintain safety and performance.
- Do not exceed the recommended specifications for bullet types and cartridge cases.
- In case of any malfunction or unusual behavior, stop using the product immediately and seek assistance.

Instructions for Installation and Usage

1. Installation of the Seater with Crimp:

- Ensure that your reloading press is properly secured.
- Attach the Seater with Crimp to the press using the 7/8 thread.
- Verify that the seater is tightened securely to prevent any movement during operation.

2. Using the Seater:

- Select the appropriate seaterhead for the bullet you are using.
- Insert the bullet into the cartridge case and place it into the seating die.
- Operate the press to seat the bullet to the desired depth.
- If crimping is required, adjust the seater to apply the crimp to the mouth of the cartridge case.
- Repeat the process for each cartridge case as needed.

3. PostUse Care:

- After use, clean the product to remove any residue or debris.
- Inspect the seaterhead and replace if it shows signs of wear or damage.
- Store the product in a safe and dry location.

Disposal Instructions

- Dispose of the product in accordance with local regulations for nonfood products.
- If the product is damaged or no longer functional, consider recycling or contacting a waste disposal service that handles hazardous materials.

Contact Information for Further Support

For any inquiries or assistance regarding the Seater with Crimp 7/8, please refer to the manufacturer's contact information provided in the product manual. It is important to reach out for support to ensure safe and effective use of the product.

Conclusion

By following these safety instructions, you can ensure a safe and efficient experience with the Seater with Crimp 7/8. Always prioritize safety and refer to this guide whenever you have questions about the usage of your product. Thank you for your attention to these important safety guidelines.
