

Seater with Crimp 7/8 - Seater with Crimp 300 Wea Mag

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 7/8

Introduction

Thank you for choosing the Seater with Crimp 7/8. This product is designed to provide accurate bullet seating with the option for crimping. To ensure safe operation and optimal performance, please read this safety instruction guide carefully.

General Safety Guidelines

- Ensure that all users read and understand these safety guidelines before using the product.
- Always handle the Seater with Crimp 7/8 with care to avoid injury.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear.
- If you encounter any issues, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection, when using the Seater with Crimp 7/8.
- Ensure that the workspace is clean and free from any obstructions before starting.
- Do not exceed the recommended load limits for the product.
- Avoid using the product in wet or damp conditions to prevent electrical hazards.
- Ensure that all components are securely attached before use.
- Do not modify the product in any way, as this may compromise safety and performance.

Instructions for Installation and Usage

1. Installation

- Ensure that the workspace is clean and organized.
- Attach the Seater with Crimp 7/8 to the appropriate reloading press following the manufacturer's instructions.
- Verify that the thread (7/8) is correctly aligned and securely fastened.

2. Usage

- Prepare the cartridge case by ensuring it is clean and free of debris.
- Insert the bullet into the guide bushing of the Seater with Crimp 7/8.
- Adjust the seaterhead as necessary for the bullet type being used.
- If crimping is desired, ensure the crimping feature is engaged before seating the bullet.
- Apply steady pressure to the handle of the reloading press to seat the bullet.
- Inspect the seated bullet for proper depth and crimping.

Disposal Instructions

- Dispose of any unused or defective components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Follow local guidelines for electronic waste disposal if applicable.

Contact Information for Further Support

For further assistance or inquiries regarding safety and product usage, please refer to the product manual or contact the manufacturer directly.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with the Seater with Crimp 7/8. Always prioritize safety and consult the manual for any additional guidance. Thank you for your attention to these important safety measures.
