

Seater with Crimp 7/8 - Seater with Crimp 303 British

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 7/8

Introduction

Thank you for choosing the Seater with Crimp 7/8. This product is designed to provide precision and efficiency in bullet seating. To ensure your safety and the effective use of this product, please read this guide carefully. It contains essential safety information and instructions for proper use.

General Safety Guidelines

- Always handle the Seater with Crimp 7/8 with care to avoid injury.
- Ensure that you are familiar with the operation of the product before use.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage.
- Use only compatible components with the Seater with Crimp 7/8 to avoid malfunctions.
- Store the product in a dry and secure location when not in use.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Wear appropriate safety gear, including safety glasses and gloves, during use.
- Ensure that the work area is welllit and free from distractions.
- Do not exceed the specified load limits for the product.
- Avoid using the Seater with Crimp 7/8 if you are tired or under the influence of substances that may impair your judgment.
- Follow all manufacturer instructions for loading and seating bullets.
- Be aware of the potential hazards associated with reloading ammunition, including the risk of explosion or injury.
- In case of an emergency, stop using the product immediately and seek assistance.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is securely mounted and stable.
- Attach the Seater with Crimp 7/8 to the reloading press using the provided mounting hardware.
- Confirm that the seaterhead is securely fastened and properly aligned.

2. Usage:

- Select the appropriate seaterhead for the bullet you are using. This can significantly improve concentricity.
- Adjust the seating depth according to your specifications.
- If crimping is required, set the crimp adjustment to your desired level.
- Insert the cartridge case into the reloading press and position the bullet in the case mouth.
- Activate the press to seat the bullet. Ensure that the bullet is seated to the correct depth.
- Inspect the completed cartridge for any defects or improper seating.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the Seater with Crimp 7/8 in regular household waste.

- Contact your local waste management facility for guidance on proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Seater with Crimp 7/8, please refer to the manufacturer's manual or website for additional resources and support.

Thank you for your attention to these safety instructions. Your adherence to these guidelines will help ensure a safe and effective reloading experience.
