Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Seater with Crimp Safety Instruction Guide

Introduction

Thank you for choosing the Seater with Crimp 7/8 and 8x60 S. This guide provides essential safety instructions to ensure the safe and effective use of your bullet seater. Please read this document carefully before using the product to understand how to operate it safely and effectively.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as outlined in this manual.
- Always wear appropriate safety gear, including safety glasses, when operating the bullet seater.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the bullet seater for any signs of wear or damage before each use.
- Do not attempt to modify or repair the product without consulting the manufacturer or a qualified technician.
- In case of any accidents or injuries, report them to the relevant authorities immediately.
- Stay informed about any recall notices or safety alerts related to this product by checking the EU Safety Gate platform.

Specific Safety Precautions for Use

- Read the manual thoroughly before using the bullet seater.
- Ensure that the bullet seater is securely attached to your reloading press before use.
- Use only compatible bullet types and sizes as specified by the manufacturer.
- Always check that the cartridge case is free from obstructions before seating the bullet.
- When crimping, apply the crimp only as needed to avoid damaging the bullet or cartridge.
- Never exceed the recommended pressure limits when seating bullets.
- Store the bullet seater in a dry, cool place when not in use to prevent corrosion and damage.

Instructions for Installation and Usage

Installation

1. Secure the Bullet Seater:

- Attach the bullet seater to your reloading press using the 7/8 inch thread.
- Ensure that it is tightly secured to prevent movement during operation.

2. Select the Appropriate Seater Head:

- Choose the correct seater head based on the bullet type you are using.
- Replace the seater head by following the manufacturer's instructions included in the manual.

Usage

1. Prepare the Cartridge Case:

- Inspect the cartridge case for cleanliness and integrity.
- Ensure that the case mouth is properly sized for the bullet.

2. Seating the Bullet:

- Insert the bullet into the cartridge case.

- Slowly operate the reloading press to seat the bullet to the desired depth.
- If crimping is required, adjust the seater to apply the crimp as necessary.

3. Final Inspection:

- After seating, visually inspect the cartridge to ensure proper bullet seating and crimping.
- Discard any cartridges that do not meet safety and quality standards.

Disposal Instructions

- Dispose of any damaged or unusable components of the bullet seater in accordance with local regulations.
- Recycle materials where possible to minimize environmental impact.
- Follow local guidelines for the disposal of ammunition components and reloading supplies.

Contact Information for Further Support

For any questions or further assistance regarding the Seater with Crimp, please refer to the manual or visit the manufacturer's website for support resources.

Thank you for following these safety instructions. Your safety is our priority. Enjoy using your Seater with Crimp responsibly!
