

# Seater with Crimp 7/8 - Seater with Crimp 8x75 RS

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Seater with Crimp 7/8 and 8x75 RS

## Introduction

Thank you for choosing the Seater with Crimp 7/8 and 8x75 RS. This product is designed for safely seating bullets with an optional crimp feature. To ensure safe and effective use, please read this safety instruction guide thoroughly.

## General Safety Guidelines

- Always handle the Seater with Crimp with care and respect.
- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Follow all local laws and regulations regarding the use of reloading equipment.

## Specific Safety Precautions for Use

- Use the Seater with Crimp only with compatible cartridges.
- Always wear safety glasses when using the product to protect your eyes from debris.
- Do not exceed the recommended seating pressure to avoid damaging the bullet or cartridge.
- Ensure that your work area is clean and free from distractions to maintain focus.
- Avoid wearing loose clothing or jewelry that may get caught in the equipment.
- Store the product in a dry, secure location when not in use.

## Instructions for Installation and Usage

### 1. Installation of the Seater Head:

- Ensure the reloading press is turned off and unplugged.
- Remove the existing seater head by unscrewing it from the press.
- Select the appropriate seater head for the bullet you will be using.
- Screw the new seater head onto the press until it is secure.

### 2. Seating the Bullet:

- Prepare the cartridge case by ensuring it is clean and free of obstructions.
- Place the bullet into the cartridge case mouth.
- Adjust the seating depth according to your specifications.
- Activate the reloading press to seat the bullet into the cartridge case.
- If crimping is desired, adjust the crimp feature and repeat the seating process.

### 3. PostUsage:

- After use, clean the product to remove any residue.
- Store the Seater with Crimp in its designated place to prevent damage.

## Disposal Instructions

- Dispose of any damaged or worn parts in accordance with local waste disposal regulations.
- Do not dispose of the product in regular household waste.
- Check with local authorities for proper disposal methods for reloading equipment.

## **Contact Information for Further Support**

For any safety inquiries or additional support, please refer to the EU contact point for consumer safety. You can find more information on the EU's Safety Gate platform regarding product recalls and safety updates.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective experience with your Seater with Crimp 7/8 and 8x75 RS. Always prioritize safety and adhere to local regulations when using reloading equipment. Thank you for your attention to these important guidelines.
