

Seater with Crimp 7/8 - Seater with Crimp 8x51 R Lebel

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 7/8

Introduction

Thank you for choosing the Seater with Crimp 7/8. This product is designed to assist in the precise seating and crimping of bullets for reloading cartridges. While we strive to ensure the safety and effectiveness of our products, it is essential to follow the safety guidelines outlined in this manual to ensure safe usage.

General Safety Guidelines

- Always read and understand the user manual before using the product.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose as described in this manual.
- Regularly inspect the product for any signs of wear or damage before use.
- If you notice any defects or issues, discontinue use immediately and seek assistance.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the workspace is clean and free from distractions.
- Always wear appropriate safety gear, including eye protection and gloves.
- Avoid wearing loose clothing or jewelry that could become entangled during use.
- Do not exceed the manufacturer's recommended limits for bullet seating and crimping.
- Use only compatible bullet types with the seaterhead to prevent accidents.
- Ensure that the cartridge case is securely held in place during operation.
- Never attempt to modify the product or use it for unintended purposes.

Instructions for Installation and Usage

1. Installation of SeaterHead:

- Select the appropriate seaterhead for the bullet type being used.
- Ensure that the seaterhead is clean and free from debris.
- Carefully attach the seaterhead to the main body of the seater, ensuring a secure fit.

2. Seating the Bullet:

- Place the cartridge case into the seater.
- Insert the bullet into the mouth of the cartridge case.
- Gradually lower the seaterhead until it makes contact with the bullet.
- Apply steady pressure to seat the bullet to the desired depth.

3. Crimping the Cartridge:

- If crimping is required, adjust the seaterhead accordingly.
- Ensure that the cartridge case is properly positioned.
- Apply steady pressure to crimp the mouth of the cartridge case.
- Inspect the crimp to ensure it is secure and uniform.

4. PostUse Care:

- After use, clean the seater and seaterhead to remove any residue.
- Store the product in a safe, dry location away from children.

Disposal Instructions

- Dispose of any used cartridges and components in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Follow local guidelines for the disposal of metal and plastic materials.

Contact Information for Further Support

For any questions or concerns regarding the use of this product, please refer to the manufacturer's website or contact their customer service for assistance.
