Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 7/8 Seater with Crimp 338 Federal

Introduction

Thank you for choosing the Seater with Crimp 7/8 Seater with Crimp 338 Federal. This guide provides essential safety instructions and usage information to ensure your experience with this product is safe and effective. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Stay informed about product recalls and updates via the EU Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the bullet seater.
- Ensure that your work area is wellventilated and free from flammable materials.
- Do not exceed the recommended load specifications for the bullet seater.
- Avoid using the bullet seater if you are tired or under the influence of drugs or alcohol.
- Follow all local laws and regulations regarding ammunition reloading and safety.

Instructions for Installation and Usage

1. Installation of the Seater Head

- Remove the existing seater head by unscrewing it from the main body of the bullet seater.
- Select the appropriate seater head for your bullet type from the available options.
- Securely attach the new seater head by screwing it into place until it is firmly tightened.

2. Seating the Bullet

- Place a cartridge case into the bullet seater.
- Insert the bullet into the cartridge case.
- Adjust the seating depth according to your specifications.
- Operate the bullet seater to press the bullet into the cartridge case. Ensure that the crimp option is activated if required.

3. Crimping the Cartridge

- If you choose to crimp the cartridge case, ensure that the crimping mechanism is properly set.
- Operate the bullet seater to crimp the mouth of the cartridge case securely without damaging the bullet or casing.

4. Final Checks

- Inspect the seated bullet for proper depth and alignment.
- Ensure that the cartridge case is free from defects and is suitable for use.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations for hazardous waste.
- Do not dispose of the product in regular household waste. Check for local recycling programs or hazardous waste disposal facilities.

Contact Information for Further Support

For additional support or inquiries regarding the Seater with Crimp 7/8 Seater with Crimp 338 Federal, please refer to the manufacturer's official contact points. Ensure to have your product details and any relevant information ready when seeking assistance.

Thank you for your attention to these safety instructions. Your safety is our priority, and we hope you enjoy using your Seater with Crimp 7/8 Seater with Crimp 338 Federal responsibly and effectively.
