

# Seater with Crimp 7/8 - Seater with Crimp 358 Win

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Seater with Crimp 7/8 Seater with Crimp 358 Win

## Introduction

Thank you for choosing the Seater with Crimp 7/8 Seater with Crimp 358 Win. This product is designed to help you achieve accurate bullet seating for your reloading needs. It is important to follow safety guidelines to ensure safe and effective use of this product. This guide provides essential safety information, usage instructions, and contact information for further support.

## General Safety Guidelines

- Always read and understand the product manual before use.
- Ensure that you are using the product in a wellventilated area.
- Keep the product out of reach of children and vulnerable individuals.
- Check the product for any signs of damage before use. Do not use if damaged.
- Follow all manufacturer instructions for assembly, use, and maintenance.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves while operating the product.
- Ensure that the work area is clean and free of obstructions.
- Always doublecheck the compatibility of the bullet and seater head being used.
- Do not exceed the recommended load specifications for your ammunition.
- Avoid placing fingers or hands near the moving parts of the seater during operation.
- Do not leave the product unattended while in use.
- If you experience any unusual noises or malfunctions, stop using the product immediately and consult the manual.

## Instructions for Installation and Usage

### Installation

1. Ensure that the work surface is stable and secure.
2. Attach the seater head securely to the reloading press using the provided threads (7/8).
3. Confirm that the seater head is properly aligned with the guide bushing.

### Usage

1. Prepare the cartridge case by ensuring it is clean and free of debris.
2. Place the bullet into the cartridge case, ensuring it is seated properly.
3. Adjust the seater to the desired depth for bullet seating.
4. If crimping is required, set the crimping option as per your requirements.
5. Operate the reloading press to seat the bullet. Monitor the process closely for any irregularities.
6. After seating, inspect the cartridge for proper bullet seating and crimping.

## Disposal Instructions

- Dispose of any packaging materials in accordance with local waste disposal regulations.
- If the product reaches the end of its life cycle, dispose of it in a manner that complies with local

environmental regulations.

- Do not dispose of the product in regular household waste if it contains hazardous materials.

## **Contact Information for Further Support**

For any inquiries related to safety or product support, please refer to the manufacturer's contact information provided in the product manual. It is important to reach out for assistance if you have any questions or concerns regarding the use of this product.

Thank you for your attention to these safety instructions. Proper use and adherence to safety guidelines will help ensure a safe and efficient reloading experience.
