

Bench-Rest-Seater 7/8 - Bench-Rest-Seater 4,6x30

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

BenchRestSeater Safety Instruction Guide

Introduction

Thank you for choosing the BenchRestSeater 7/8 and 4,6x30. This product is designed to ensure the highest precision in seating match bullets. To guarantee safe and effective use, please read this safety instruction guide carefully. It is essential to follow these guidelines to minimize risks and ensure optimal performance.

General Safety Guidelines

- Always use the BenchRestSeater in accordance with the manufacturer's instructions.
- Ensure that the work area is clean and free from distractions.
- Keep the product out of reach of children and unauthorized individuals.
- Regularly inspect the BenchRestSeater for any signs of wear or damage before use.
- Use only compatible components, including seater heads, as specified in the manual.
- Report any unsafe conditions or product malfunctions to the appropriate authorities.

Specific Safety Precautions for Use

- **Hazard Awareness:** Be aware of potential hazards when using the BenchRestSeater, including:
 - Pinch points during operation.
 - Risk of injury from improper handling of bullets and cartridge cases.
- **Personal Protective Equipment (PPE):** Always wear appropriate safety gear, such as:
 - Safety glasses to protect your eyes.
 - Gloves to prevent injuries from sharp objects.
- **Proper Handling:** Handle cartridges and bullets with care to avoid accidental discharge or injury.
- **Secure Setup:** Ensure that the BenchRestSeater is securely mounted on a stable surface before use.
- **Bullet Runout:** Monitor bullet runout closely during the seating process to avoid compromising accuracy.

Instructions for Installation and Usage

1. Installation:

- Ensure the work surface is stable and clean.
- Securely mount the BenchRestSeater on the workbench using the provided hardware.
- Check that the seater head is properly attached and locked in place.

2. Usage:

- Load the cartridge case into the seater's guide sleeve.
- Insert the bullet into the cartridge case.
- Gently press down on the seaterhead to begin the seating process.
- Monitor the alignment of the bullet and cartridge case for concentricity.
- Once the bullet is seated, remove the cartridge case and inspect the seating depth.
- Repeat the process as necessary for additional cartridges.

3. Maintenance:

- Regularly clean the BenchRestSeater to prevent buildup of debris.
- Replace the seaterhead as needed to maintain optimal performance.
- Store the BenchRestSeater in a dry place when not in use.

Disposal Instructions

- Dispose of any broken or wornout components in accordance with local regulations.
- Do not dispose of the BenchRestSeater in regular household waste.
- Contact your local waste management facility for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the BenchRestSeater, please refer to the manual for guidance on selecting accessories and spare parts. For safety inquiries, ensure you have the appropriate EUbased contact information for support.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with the BenchRestSeater. Thank you for your attention to safety, and enjoy your precision seating experience.
