

# Bench-Rest-Seater 7/8 - Bench-Rest-Seater 5,6x52 R

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# BenchRestSeater Safety Instruction Guide

## Introduction

Thank you for choosing the BenchRestSeater 7/8 and BenchRestSeater 5,6x52 R. This product is designed to provide you with the highest precision in seating match bullets. It is essential to use this product safely and effectively to ensure both your safety and the optimal performance of the seater.

This guide outlines important safety instructions and usage guidelines to help you understand and operate the BenchRestSeater properly. Please read this guide carefully before using the product.

## General Safety Guidelines

- Always read the instruction manual before using the BenchRestSeater.
- Ensure that the workstation is clean and free of obstructions to avoid accidents.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose as specified in the manual.
- Regularly inspect the BenchRestSeater for any signs of wear or damage before each use.
- If you experience any issues or malfunctions, discontinue use immediately and seek assistance.

## Specific Safety Precautions for Use

- Use eye protection when operating the BenchRestSeater to prevent injury from debris.
- Ensure that the cartridge case is properly aligned in the seater to avoid misfires or accidents.
- Do not exceed the recommended specifications for bullet seating to prevent damage to the product or injury.
- Use only the recommended seater heads for the specific bullets you are working with to ensure proper concentricity.
- Avoid using excessive force during the seating operation to prevent damage to the seater or injury to yourself.

## Instructions for Installation and Usage

### 1. Setup:

- Place the BenchRestSeater on a stable, flat surface.
- Ensure that all components are securely fastened before use.

### 2. Installation of Seater Head:

- Select the appropriate seater head for the bullet you will be using.
- Remove the existing seater head by unscrewing it from the seater assembly.
- Attach the new seater head by screwing it into place until secure.

### 3. Using the BenchRestSeater:

- Insert the cartridge case into the guide sleeve, ensuring it is aligned correctly.
- Place the bullet into the seater head.
- Gently lower the seater head onto the bullet and apply even pressure to seat the bullet into the cartridge case.
- Check for proper seating and concentricity before proceeding to the next cartridge.

### 4. PostUse Care:

- Clean the BenchRestSeater after each use to maintain its performance.

- Store the product in a dry, secure location away from children and pets.

## **Disposal Instructions**

- Dispose of the BenchRestSeater in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Consult your local waste management authorities for proper disposal methods for tools and equipment.

## **Contact Information for Further Support**

For any questions or concerns regarding the BenchRestSeater, please refer to the contact information provided in the product packaging or manual. It is important to have access to support for any safety inquiries or product issues.

## **Conclusion**

The BenchRestSeater is a precision tool designed for serious reloaders. By following these safety instructions and guidelines, you can ensure a safe and effective experience while using this product. Always prioritize safety and proper technique to achieve the best results. Thank you for your attention to these important safety measures.
