

Bench-Rest-Seater 7/8 - Bench-Rest-Seater 222 Rem

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for BenchRestSeater 7/8 BenchRestSeater 222 Rem

Introduction

Thank you for choosing the BenchRestSeater 7/8 BenchRestSeater 222 Rem. This product is designed for precision in seating match bullets and ensuring optimal bullet runout. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the BenchRestSeater is used only by individuals who are knowledgeable about reloading and handling ammunition.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using this product.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the BenchRestSeater for any signs of damage or wear. Do not use if damaged.
- Follow all local laws and regulations regarding ammunition reloading and handling.

Specific Safety Precautions for Use

- Always ensure that the cartridge case is properly aligned in the guide sleeve before seating the bullet.
- Avoid using excessive force during the seating operation to prevent damaging the bullet or the cartridge case.
- Use the correct seater head that corresponds to the bullet being used to improve concentricity and reduce the risk of misfires.
- Do not attempt to modify or repair the BenchRestSeater without consulting the manufacturer's guidelines.
- Store the BenchRestSeater in a dry, cool place to prevent corrosion and damage.

Instructions for Installation and Usage

1. Installation:

- Remove the BenchRestSeater from its packaging.
- Ensure that the seaterhead is securely attached to the seater body.
- If necessary, select the appropriate seater head for the bullet being used and install it according to the manufacturer's instructions.

2. Usage:

- Place the cartridge case into the guide sleeve, ensuring it is seated properly.
- Insert the bullet into the cartridge case.
- Slowly and steadily press down on the handle to seat the bullet into the cartridge case.
- Check for proper seating depth and concentricity after each operation.
- If any issues arise during the process, stop immediately and consult the manual for troubleshooting.

Disposal Instructions

- Dispose of any unused or damaged components of the BenchRestSeater according to local regulations for hazardous waste.
- Do not dispose of the product in regular household waste. Check for designated recycling facilities that

accept such equipment.

Contact Information for Further Support

For any questions or concerns regarding the BenchRestSeater, please refer to the manufacturer's manual or website for further assistance. Ensure that you have the product details at hand when seeking help.

By following these safety instructions, you can ensure a safe and effective experience with your BenchRestSeater 7/8 BenchRestSeater 222 Rem. Thank you for your attention to these important safety guidelines.
