

Bench-Rest-Seater 7/8 - Bench-Rest-Seater 6mm Dasher

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

BenchRestSeater Safety Instruction Guide

Introduction

Thank you for choosing the BenchRestSeater 7/8 and 6mm Dasher. This product is designed for precision in seating match bullets and ensuring optimal performance in your reloading process. Please read this safety instruction guide carefully to ensure safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always ensure that the BenchRestSeater is used in a safe and controlled environment.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the BenchRestSeater for any signs of wear or damage before use.
- Do not use the product if it is damaged or malfunctioning.
- Report any unsafe products or incidents to the relevant authorities.
- Stay informed about any recalls or safety updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that you are familiar with the operation of the BenchRestSeater before attempting to use it.
- Always wear appropriate safety gear, including eye protection, when reloading ammunition.
- Avoid distractions while using the BenchRestSeater to maintain focus and precision.
- Do not exceed the recommended specifications for the BenchRestSeater and its components.
- Handle bullets and cartridge cases with care to prevent accidents.
- Follow the manufacturer's guidelines for selecting the correct seater head to ensure optimal concentricity and safety.

Instructions for Installation and Usage

1. Unboxing the Product

- Carefully remove the BenchRestSeater from its packaging.
- Ensure that all components are present: the seaterhead, guide sleeve, and any accessories.

2. Setting Up the BenchRestSeater

- Place the BenchRestSeater securely on a stable surface.
- Ensure that the guide sleeve is properly aligned and secured in place.

3. Installing the Seater Head

- Choose the appropriate seater head based on the bullet type you will be using.
- Replace the seater head by unscrewing the existing one and screwing in the new head securely.

4. Seating the Bullets

- Insert a cartridge case into the guide sleeve.
- Place the bullet on top of the cartridge case.
- Slowly and carefully apply pressure to the seater head to seat the bullet into the cartridge case.
- Check for proper alignment and concentricity after seating.

5. PostUse Care

- Clean the BenchRestSeater after each use to maintain its precision.

- Store the product in a dry and safe location, away from children and pets.

Disposal Instructions

- Dispose of any packaging materials in accordance with local recycling regulations.
- If the BenchRestSeater reaches the end of its life cycle, dispose of it responsibly, adhering to local waste management guidelines for metal and plastic products.

Contact Information for Further Support

For any safety inquiries or support regarding the BenchRestSeater, please refer to the manufacturer's contact information provided with your product. Ensure that you have the product details ready when seeking assistance.

By following these guidelines and instructions, you can ensure safe and effective use of the BenchRestSeater. Thank you for prioritizing safety in your reloading activities.
