

Bench-Rest-Seater 7/8 - Bench-Rest-Seater 260 Rem

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of "bullet runout", there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

BenchRestSeater 7/8 Safety Instruction Guide

Introduction

Thank you for choosing the BenchRestSeater 7/8 for your precision bullet seating needs. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this manual thoroughly before using the BenchRestSeater.

General Safety Guidelines

- Always handle the BenchRestSeater with care to prevent injury.
- Ensure that the work area is clean and free from distractions.
- Use personal protective equipment (PPE) such as safety glasses and gloves when operating the seater.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the BenchRestSeater for any signs of wear or damage before use.
- Follow all local laws and regulations regarding the use of reloading equipment.

Specific Safety Precautions for Use

- Before using the BenchRestSeater, ensure that it is securely mounted to a stable surface.
- Always check that the correct seater head is installed for the bullet type being used.
- Avoid overtightening the seater head, as this may cause damage or affect performance.
- Do not attempt to modify or disassemble the BenchRestSeater beyond what is described in the manual.
- Be mindful of your fingers and hands when seating bullets to prevent pinching or injury.
- If you experience any issues during use, stop immediately and consult the manual for troubleshooting.

Instructions for Installation and Usage

1. Installation:

- Securely mount the BenchRestSeater to a stable work surface using appropriate fasteners.
- Ensure that the seater is positioned for comfortable operation and accessibility.

2. Preparing for Use:

- Select the appropriate seater head based on the bullet type.
- Install the seater head by following the manufacturer's instructions included in the manual.

3. Seating Bullets:

- Place the cartridge case into the guide sleeve of the BenchRestSeater.
- Ensure that the cartridge case is properly aligned and seated within the guide sleeve.
- Insert the bullet into the cartridge case and gently lower the seater head until it contacts the bullet.
- Apply steady pressure to the seater head to seat the bullet. Monitor for any resistance or issues.
- Once the bullet is seated, carefully remove the cartridge from the seater.

4. PostUse Care:

- Clean the BenchRestSeater after each use to remove any residue or debris.
- Store the BenchRestSeater in a dry, secure location when not in use.

Disposal Instructions

- Dispose of any worn or damaged components of the BenchRestSeater in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for local recycling programs or hazardous waste disposal options.

Contact Information for Further Support

For any inquiries regarding safety or usage of the BenchRestSeater, please consult the manufacturer's manual or contact the customer support team. They can provide further assistance and information regarding your product.

By following these safety instructions and guidelines, you can ensure a safe and effective experience with your BenchRestSeater 7/8. Always prioritize safety and compliance with local regulations while using this precision reloading tool.
