

## Bench-Rest-Seater 7/8 - Bench-Rest-Seater 7x64

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# BenchRestSeater 7/8 Safety Instruction Guide

## Introduction

Thank you for choosing the BenchRestSeater 7/8. This product is designed for the highest precision in seating match bullets. To ensure safe and effective use, please read this safety instruction guide thoroughly. Adhering to these guidelines will help you avoid potential hazards and ensure optimal performance.

## General Safety Guidelines

- Ensure that the BenchRestSeater is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Always wear appropriate safety gear, including eye protection, when using the seater.
- Inspect the BenchRestSeater for any damage or wear before each use. Do not use if damaged.
- Ensure that your workspace is clean and free from clutter to prevent accidents.

## Specific Safety Precautions for Use

- **Hazardous Materials:** Be aware that reloading ammunition involves handling materials that can be hazardous. Follow local regulations regarding the handling and disposal of these materials.
- **Bullet Runout:** When seating bullets, ensure that the cartridge case is aligned properly. Misalignment can lead to dangerous situations.
- **SeaterHead Replacement:** Only use compatible seaterheads as specified in the manual. Using incorrect parts can compromise safety and performance.
- **Storage:** Store the BenchRestSeater in a dry, secure location away from moisture and direct sunlight.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the work surface is stable and secure.
- Attach the BenchRestSeater to your reloading press according to the manufacturer's instructions.
- Check that all components are tightly secured before proceeding.

### 2. Usage:

- Adjust the seaterhead according to the bullet specifications. Refer to the manual for guidance on selecting the correct seaterhead.
- Insert the cartridge case into the seater, ensuring proper alignment.
- Slowly and steadily press down to seat the bullet. Monitor for any irregular resistance that may indicate misalignment.
- After seating the bullet, inspect the cartridge for concentricity and runout. If issues are detected, repeat the seating process.

### 3. PostUsage:

- Clean the BenchRestSeater after each use to prevent buildup of debris.
- Store the product in its designated case or location to protect it from damage.

## Disposal Instructions

- Dispose of any broken or unusable parts in accordance with local regulations.
- Recycle materials whenever possible, and ensure that hazardous materials are disposed of in a safe and environmentally responsible manner.

## **Contact Information for Further Support**

For any questions or concerns regarding the BenchRestSeater, please refer to the product manual or consult with your retailer.

By following these safety guidelines and instructions, you will ensure a safe and effective experience with your BenchRestSeater 7/8. Thank you for your attention to safety, and happy reloading!
