

Bench-Rest-Seater 7/8 - Bench-Rest-Seater 7x65 R

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

BenchRestSeater 7/8 Safety Instruction Guide

Introduction

Thank you for choosing the BenchRestSeater 7/8. This product is designed for precision seating of match bullets and ensuring optimal bullet runout. To ensure safe and effective use of this product, please read and follow the guidelines outlined in this safety instruction guide.

General Safety Guidelines

- Always handle the BenchRestSeater with care to avoid injury.
- Ensure that the workspace is clean, dry, and free from distractions.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose as specified in the manual.
- Regularly inspect the BenchRestSeater for any signs of wear or damage before use.
- Report any unsafe conditions or product issues to the appropriate authorities.

Specific Safety Precautions for Use

- Before using the BenchRestSeater, ensure that you are familiar with its components and functions.
- Always wear appropriate safety gear, such as safety glasses, when using the product.
- Ensure that the cartridge case is properly aligned in the guide sleeve before seating the bullet.
- Avoid excessive force when seating bullets to prevent damage to the product or injury.
- If you notice any unusual sounds or resistance during operation, stop using the product immediately and inspect it for issues.
- Keep hands and other body parts clear of moving parts during operation.

Instructions for Installation and Usage

1. Installation:

- Secure the BenchRestSeater to a stable work surface.
- Ensure that the thread size (7/8) is compatible with your reloading setup.
- Attach the appropriate seater head for the bullet you are using.

2. Usage:

- Place the cartridge case into the guide sleeve.
- Align the bullet with the cartridge case in the seating position.
- Apply a gentle, even pressure to the seater head to seat the bullet.
- Check for proper seating and concentricity after each operation.
- Replace the seater head if you are using a different bullet type to ensure optimal performance.

Disposal Instructions

- Dispose of the BenchRestSeater and any associated materials in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- If the product is damaged beyond repair, consider recycling components where possible.

Contact Information for Further Support

For any questions or concerns regarding the BenchRestSeater 7/8, please refer to the manual for assistance. Ensure you have the product details ready for a more efficient response.

By following these guidelines, you can ensure a safe and effective experience with the BenchRestSeater 7/8.
Thank you for your attention to safety.
