

# Bench-Rest-Seater 7/8 - Bench-Rest-Seater 7,5x55 GP11

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# BenchRestSeater 7/8 Safety Instruction Guide

## Introduction

Thank you for choosing the BenchRestSeater 7/8. This product is designed to provide high precision in seating match bullets, ensuring the best performance in your shooting activities. To ensure your safety and the proper use of this product, please read this guide carefully.

## General Safety Guidelines

- Ensure that the BenchRestSeater is used only for its intended purpose, which is to seat bullets accurately in cartridge cases.
- Always inspect the product before use for any signs of damage or wear. Do not use if damaged.
- Keep the product out of reach of children and vulnerable individuals to prevent accidents.
- Follow all local laws and regulations regarding the use of reloading equipment and ammunition.
- Be aware of your surroundings when using the BenchRestSeater to avoid accidents.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses, when operating the BenchRestSeater.
- Ensure that the work area is clean and free of unnecessary items that could cause distractions or accidents.
- Do not exceed the recommended bullet seating depth or pressure limits specified in the bullet manufacturer's guidelines.
- Avoid placing hands or fingers near moving parts during operation to prevent injury.
- If you experience any unusual noises or resistance during use, stop immediately and inspect the product.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials, including the BenchRestSeater, cartridge cases, bullets, and any required accessories.
- Ensure that you are working in a wellventilated area.

### 2. Installation:

- Securely attach the BenchRestSeater to your reloading press according to the manufacturer's instructions.
- Ensure that the guide sleeve is properly aligned with the cartridge chamber for optimal performance.

### 3. Usage:

- Insert the cartridge case into the guide sleeve of the BenchRestSeater.
- Place the bullet into the case mouth, ensuring it is properly aligned.
- Slowly and steadily apply pressure to the seaterhead to seat the bullet into the cartridge case.
- Check the concentricity of the seated bullet using a runout gauge if necessary.
- If using a different bullet type, consider changing the seaterhead for improved performance.

### 4. PostUsage:

- After completing your reloading session, clean the BenchRestSeater to remove any debris or residue.

- Store the product in a safe and dry location, away from children and pets.

## **Disposal Instructions**

- Dispose of any damaged or worn components of the BenchRestSeater in accordance with local regulations.
- If the product is no longer usable, consider recycling parts where possible to minimize environmental impact.

## **Contact Information for Further Support**

For safety inquiries or additional assistance regarding the BenchRestSeater, please contact your local distributor or manufacturer. They can provide guidance on product safety, maintenance, and any potential recalls.

By following these safety instructions, you can ensure a safe and effective experience with your BenchRestSeater 7/8. Thank you for prioritizing safety in your reloading practices.
