

Bench-Rest-Seater 7/8 - Bench-Rest-Seater 30 BR

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

BenchRestSeater 7/8 Safety Instructions

Introduction

Thank you for choosing the BenchRestSeater 7/8. This product is designed for precision in seating match bullets, ensuring optimal performance and safety during use. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Always handle the BenchRestSeater with care to prevent injury and ensure safe operation.
- Ensure that the product is used in a wellventilated area, free from flammable materials.
- Keep the BenchRestSeater out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage. Do not use if damaged.
- Follow all local laws and regulations regarding the use of reloading equipment.

Specific Safety Precautions for Use

- Use only compatible bullet types as specified in the product manual to avoid malfunctions.
- Always wear appropriate safety gear, including safety glasses, when using the seater.
- Ensure that the seaterhead is securely attached before operation.
- Do not exceed the recommended bullet seating depth to avoid potential hazards.
- Keep hands clear of moving parts during operation to prevent injury.
- Never leave the BenchRestSeater unattended while in use.

Instructions for Installation and Usage

1. Installation

- Place the BenchRestSeater on a stable, flat surface.
- Secure the seaterhead by following these steps:
 - Align the seaterhead with the mounting point.
 - Tighten the locking mechanism until secure.
- Ensure that the guide sleeve is properly positioned for accurate bullet alignment.

2. Usage

- Prepare your cartridge case and bullet according to your reloading specifications.
- Insert the cartridge case into the guide sleeve.
- Place the bullet into the seaterhead.
- Gently lower the seaterhead until the bullet contacts the cartridge case.
- Apply steady pressure to seat the bullet to the desired depth.
- Remove the completed cartridge from the BenchRestSeater.
- Repeat the process for additional cartridges, ensuring to check for concentricity.

Disposal Instructions

- Dispose of the BenchRestSeater responsibly, following local regulations for electronic and mechanical equipment.
- Ensure that all components are recycled or disposed of in an environmentally friendly manner.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the product manual or contact your retailer directly.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with the BenchRestSeater 7/8. Always prioritize safety and consult the manual for additional information on product usage and maintenance. Thank you for your commitment to safety and precision in your reloading activities.
