

Bench-Rest-Seater 7/8 - Bench-Rest-Seater 9,3x74 R

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

BenchRestSeater 7/8 & 9,3x74 R Safety Instruction Guide

Introduction

Thank you for choosing the BenchRestSeater 7/8 & 9,3x74 R. This product is designed to provide you with high precision in seating match bullets. To ensure safe and efficient use, please read this safety instruction guide carefully. It outlines essential safety guidelines, precautions, and instructions for installation and usage in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always handle the BenchRestSeater with care and follow all safety instructions.
- Ensure that the product is used in a wellventilated area free from flammable materials.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the BenchRestSeater for wear and damage before use.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform for your product.

Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the BenchRestSeater.
- Ensure that the work area is organized and free of clutter to prevent accidents.
- Do not exceed the recommended seating force to avoid damaging the bullets or the seater.
- Always use the correct seater head for the bullet type to ensure optimal performance and safety.
- Never modify or alter the BenchRestSeater in any way, as this may compromise its safety and effectiveness.
- Ensure that the cartridge case is properly aligned before seating the bullet to avoid misfires or accidents.

Instructions for Installation and Usage

1. Installation

- Clean the work area and ensure it is stable.
- Secure the BenchRestSeater to a sturdy workbench or table using appropriate mounting hardware.
- Attach the desired seater head based on the bullet type you will be using. Ensure it is tightly secured.

2. Usage

- Prepare the cartridge case by ensuring it is clean and free of obstructions.
- Insert the cartridge case into the guide sleeve of the BenchRestSeater.
- Place the bullet into the seater head, ensuring it is properly aligned.
- Gradually apply downward pressure on the handle to seat the bullet. Monitor the force applied to avoid overseating.
- After seating, carefully remove the cartridge case and inspect the bullet for proper seating depth and concentricity.
- Store the BenchRestSeater in a safe, dry place when not in use.

Disposal Instructions

- Dispose of the BenchRestSeater and any associated components in accordance with local regulations.
- Do not dispose of the product in regular household waste; check for designated recycling locations or hazardous waste disposal sites.

Contact Information for Further Support

For any safety inquiries or further support regarding the BenchRestSeater, please refer to the contact information provided in the product manual or packaging. Your safety is our priority, and we are here to assist you.

By following these guidelines and instructions, you can ensure safe and effective use of the BenchRestSeater 7/8 & 9,3x74 R. Thank you for prioritizing safety in your reloading practices.
