

Bench-Rest Neck Die 1 1/4 - Bench-Rest Neck Die 5,6x61 S.E.v.H.

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of "bullet runout", there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for BenchRest Neck Die 1 1/4 BenchRest Neck Die 5,6x61 S.E.v.H

Introduction

Thank you for choosing the BenchRest Neck Die 1 1/4 BenchRest Neck Die 5,6x61 S.E.v.H. This product is designed to provide the highest precision in seating match bullets, ensuring optimal performance for your reloading needs. This safety instruction guide aims to inform you about the safe use of this product, potential hazards, and proper handling procedures in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always read and follow the instructions provided in this manual.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Stay informed about product recalls via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the die.
- Avoid using the die if you are under the influence of drugs or alcohol.
- Ensure that your working area is clean, organized, and welllit.
- Do not exceed the recommended specifications for the die.
- When adjusting or changing the seaterhead, ensure that the die is not connected to any machinery to prevent accidental operation.
- Be cautious of the potential risk of injury from sharp edges or moving parts.

Instructions for Installation and Usage

1. Installation:

- Ensure that the reloading press is securely mounted and stable.
- Carefully screw the BenchRest Neck Die into the reloading press using the 1 1/4 thread.
- Tighten securely but do not overtorque, which could damage the die or press.

2. Usage:

- Prepare your cartridge case by ensuring it is clean and free from debris.
- Insert the cartridge case into the die.
- Adjust the seaterhead according to the bullet type you are using. Selecting the correct seaterhead is crucial for achieving optimal concentricity.
- Slowly and steadily apply pressure to seat the bullet, ensuring that the cartridge case receives perfect axial guidance.
- After seating, inspect the cartridge for any signs of deformation or improper seating.
- Replace the seaterhead as needed, following the manufacturer's instructions for compatibility.

3. PostUse:

- After completing your reloading session, clean the die to remove any residue or debris.
- Store the die in a dry, safe place away from children and pets.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the die in regular household waste.
- If the product is damaged beyond repair, contact your local waste management authority for guidance on proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product support, please refer to the contact information provided in the product documentation or on the manufacturer's website.

Thank you for your attention to these safety instructions. Your safety and the effectiveness of your reloading activities are our top priorities.
