

# Bench-Rest Neck Die 1 1/4 - Bench-Rest Neck Die 6,5x65 R RWS

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of "bullet runout", there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# BenchRest Neck Die Safety Instruction Guide

## Introduction

Thank you for choosing the BenchRest Neck Die 1 1/4 for your reloading needs. This product is designed to provide the highest precision in seating match bullets. To ensure safe and effective use of this product, please read and follow the safety instructions carefully.

## General Safety Guidelines

- Always handle the die with care to avoid injury.
- Ensure that the work area is clean and welllit.
- Keep the product out of reach of children and vulnerable individuals.
- Use the die only for its intended purpose as specified in the manual.
- Regularly inspect the die for any signs of damage or wear.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Before using the die, ensure that you are wearing appropriate personal protective equipment (PPE), such as safety glasses.
- Do not exceed the recommended specifications for the die, including the maximum pressure limits.
- Ensure that the cartridge case is properly aligned in the die before operation to avoid misfires or accidents.
- Avoid applying excessive force during the seating operation to prevent damage to the die or injury.
- Store the die in a secure place when not in use to prevent unauthorized access.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the reloading press is securely mounted and stable.
- Thread the BenchRest Neck Die into the reloading press until it is snug. Use a wrench if necessary, but do not overtighten.
- Check the alignment of the die with the press to ensure proper operation.

### 2. Usage:

- Prepare your cartridge cases by ensuring they are clean and free of debris.
- Insert the cartridge case into the die, ensuring it is properly seated.
- Place the bullet on top of the cartridge case, making sure it is aligned with the die.
- Slowly pull the handle of the reloading press to seat the bullet. Monitor the process to ensure perfect concentricity.
- After seating, remove the cartridge case from the die and inspect it for any defects.

### 3. Replacement of Seater Head:

- If you need to change the seater head, unscrew the current head from the die.
- Select the appropriate seater head for the bullet you are using.
- Screw the new seater head into the die until it is secure.

## Disposal Instructions

- Dispose of the BenchRest Neck Die in accordance with local regulations.
- Do not dispose of the die in regular household waste. Instead, contact local waste management authorities for proper disposal methods.
- Ensure that any used or damaged components are disposed of safely to prevent injury.

## Contact Information for Further Support

For any inquiries or additional support regarding the BenchRest Neck Die, please refer to the product manual or contact your local distributor.

By following these safety instructions, you will ensure a safe and efficient reloading experience with the BenchRest Neck Die. Thank you for prioritizing safety in your reloading practices.
