

# Bench-Rest Neck Die 1 1/4 - Bench-Rest Neck Die 6,5x68

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# BenchRest Neck Die Safety Instruction Guide

## Introduction

Thank you for choosing the BenchRest Neck Die 1 1/4 for your reloading needs. This product is designed to provide high precision and reliability in seating match bullets. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Always handle the BenchRest Neck Die with care to avoid injury.
- Use the product only for its intended purpose as specified in this guide.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product before each use for any signs of damage or wear.
- Use protective eyewear and gloves when operating the die to prevent injury.
- Ensure that your working environment is clean and free of obstructions.
- Follow all local regulations regarding reloading and ammunition.

## Specific Safety Precautions for Use

- Ensure that the die is properly installed in your reloading press before use.
- Do not exceed the maximum load specifications for the bullets you are using.
- Be aware of potential hazards associated with reloading, including the handling of primers and powders.
- Avoid distractions while operating the die to maintain focus and precision.
- Store the die and all reloading materials in a cool, dry place, away from sources of heat and ignition.
- If you experience any issues during use, stop immediately and consult the manual for troubleshooting.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that your reloading press is securely mounted and stable.
- Remove any existing dies from the press.
- Insert the BenchRest Neck Die into the press and tighten it according to the manufacturer's specifications.
- Check that the die is aligned correctly with the shell holder.

### 2. Usage:

- Prepare your cartridge cases for reloading by cleaning and inspecting them.
- Set the desired seating depth for your bullets using the adjustable seaterhead.
- Place a cartridge case in the shell holder and ensure it is seated properly.
- Insert a bullet into the case mouth and slowly raise the ram of the reloading press to seat the bullet.
- After seating, remove the completed cartridge and inspect it for proper seating and concentricity.

### 3. Maintenance:

- Clean the die after each use to remove any residue or debris.
- Store the die in a protective case to prevent damage.
- Regularly check for wear and replace components as necessary.

## **Disposal Instructions**

- Dispose of any damaged or worn components in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of reloading materials, such as powders or primers, in household waste. Follow local guidelines for hazardous waste disposal.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the BenchRest Neck Die, please refer to the manufacturer's contact information provided in the product manual or packaging.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities. Enjoy your reloading experience with the BenchRest Neck Die!
