

# Bench-Rest Neck Die 1 1/4 - Bench-Rest Neck Die 6,5-284 Norma

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of "bullet runout", there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# BenchRest Neck Die 1 1/4 Safety Instruction Guide

## Introduction

Thank you for choosing the BenchRest Neck Die 1 1/4. This product is designed to provide the highest precision in seating match bullets. To ensure your safety and the effective use of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Always use the product in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the relevant authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.
- Ensure that online purchases meet the same safety standards as physical store purchases.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection, when using this product.
- Do not modify or alter the BenchRest Neck Die in any way.
- Ensure the workspace is clean and free from obstructions before use.
- Inspect the product for any damage before use. If damaged, do not use and contact support.
- Only use compatible cartridges as specified by the manufacturer to avoid hazards.
- Follow proper handling procedures for all components and materials used with the die.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that your reloading press is securely mounted and stable.
- Thread the BenchRest Neck Die into the reloading press at the specified thread size of 1 1/4.
- Tighten the die securely, but do not overtighten, as this may cause damage.

### 2. Usage:

- Before beginning, ensure you have all necessary components: cartridge cases, bullets, and any additional tools required.
- Insert the cartridge case into the die, ensuring it is properly aligned.
- Use the guide sleeve to ensure that the cartridge case receives perfect axial guidance during the seating operation.
- Carefully seat the bullet into the cartridge case, monitoring for any signs of bullet runout.
- If using different types of bullets, consider changing the seaterhead for improved concentricity.
- Refer to the manual for specific instructions on selecting accessories and spare parts.

### 3. PostUse:

- After use, clean the die to remove any residue or debris.
- Store the die in a safe and dry place, away from children and pets.

## **Disposal Instructions**

- Dispose of the BenchRest Neck Die and any associated materials in accordance with local regulations.
- Do not dispose of in household waste. Instead, contact local waste management services for proper disposal methods.

## **Contact Information for Further Support**

For any questions or additional support regarding the BenchRest Neck Die 1 1/4, please refer to the manufacturer's contact information provided in the product manual.

By following these safety instructions, you can ensure a safe and effective reloading experience. Thank you for your attention to these important guidelines.
