

Bench-Rest Neck Die 1 1/4 - Bench-Rest Neck Die 7x64

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

BenchRest Neck Die Safety Instruction Guide

Introduction

Thank you for choosing the BenchRest Neck Die 1 1/4 for your precision reloading needs. This guide provides essential safety instructions and guidelines to ensure the safe use of this product. Please read this document carefully before using the BenchRest Neck Die.

General Safety Guidelines

- Ensure that the BenchRest Neck Die is used only for its intended purpose, which is to resize and prepare cartridge cases for reloading.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling and operating reloading equipment.
- Keep the workspace clean and free of obstructions to avoid accidents.
- Store the BenchRest Neck Die in a safe and dry location, away from children and unauthorized users.
- Regularly inspect the die for signs of wear or damage. Do not use if damaged.

Specific Safety Precautions for Use

- Before using the BenchRest Neck Die, ensure that the reloading press is securely mounted and stable.
- Follow the manufacturer's instructions regarding the setup and adjustment of the die.
- Do not exceed the recommended load specifications for the reloading process.
- Be aware of the potential hazards associated with the handling of reloading components, including primers and powders.
- Always keep your hands and face clear of the die during operation to prevent injury.
- If you experience any malfunctions, cease operation immediately and consult the manual for troubleshooting guidance.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is turned off and unplugged before installation.
- Carefully screw the BenchRest Neck Die into the reloading press using the provided threads.
- Tighten securely, but do not overtighten, to avoid damaging the die or press.

2. Usage:

- Prepare your cartridge cases by cleaning and inspecting them for damage.
- Insert the cartridge case into the die and ensure it is seated properly.
- Operate the reloading press according to the manufacturer's guidelines, applying even pressure.
- After resizing, carefully remove the cartridge case from the die.
- Store the die and any reloaded ammunition in a safe place.

Disposal Instructions

- Dispose of any damaged or unused components in accordance with local regulations.
- Do not dispose of reloading materials in regular household waste. Follow the guidelines for hazardous waste disposal in your area.

Contact Information for Further Support

For any questions or concerns regarding the BenchRest Neck Die, please refer to the product manual or contact the manufacturer directly. It is essential to have an EUbased contact for safety inquiries, ensuring compliance with the EU General Product Safety Regulation.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with your BenchRest Neck Die. Always prioritize safety and keep this guide handy for future reference. Thank you for choosing our product, and happy reloading!
