

# Bench-Rest Neck Die 1 1/4 - Bench-Rest Neck Die 270 WSM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# BenchRest Neck Die 1 1/4 BenchRest Neck Die 270 WSM Safety Instructions

## Introduction

Thank you for choosing the BenchRest Neck Die 1 1/4 BenchRest Neck Die 270 WSM. This product is designed for precision reloading of ammunition. It is essential to follow safety guidelines to ensure safe and effective use. This manual provides important safety instructions and guidelines in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always read and understand all instructions and safety information before using the product.
- Ensure the die is used only for its intended purpose – seating match bullets.
- Keep the die and all components out of reach of children and vulnerable individuals.
- Inspect the product for any signs of damage before use. Do not use if damaged.
- Use appropriate personal protective equipment (PPE) such as safety glasses when using the die.
- Follow local regulations regarding ammunition reloading and safety.
- Report any unsafe conditions or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Ensure the work area is clean, dry, and welllit to prevent accidents.
- Do not exceed the recommended specifications for the die and its components.
- Make sure the die is securely mounted and stable during operation.
- Always use the correct seater head for the bullet type to improve concentricity and safety.
- Do not attempt to modify or alter the die in any way.
- Avoid distractions while using the die to maintain focus and prevent accidents.
- If you experience any unusual operation or performance, discontinue use immediately and seek assistance.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure all parts are present before beginning installation.
- Securely mount the die in a reloading press according to the manufacturer's instructions.
- Adjust the die to the desired height for proper bullet seating.

### 2. Usage:

- Verify that the cartridge case is clean and free from obstructions.
- Insert the cartridge case into the die.
- Place the bullet on top of the cartridge case.
- Slowly operate the press to seat the bullet, ensuring smooth and even pressure.
- Check the seating depth and concentricity after each operation.
- If necessary, replace the seater head to match the bullet type for optimal performance.

## Disposal Instructions

- Dispose of the product and any components in accordance with local regulations.
- Do not dispose of in regular household waste.
- Contact local waste management authorities for guidance on proper disposal methods.

## **Contact Information for Further Support**

For further assistance, please refer to the product manual or contact the manufacturer directly. Ensure to have your product details ready for a more efficient response.

By following these safety instructions, you can ensure a safer and more effective reloading experience with your BenchRest Neck Die 1 1/4 BenchRest Neck Die 270 WSM. Always prioritize safety and compliance with local laws and regulations.
