

# Seater with Crimp 1 1/4 - Seater with Crimp 6x70 R

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Seater with Crimp 1 1/4

## Introduction

Thank you for choosing the Seater with Crimp 1 1/4. This product is designed to provide accurate bullet seating and crimping for your reloading needs. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Always follow the manufacturer's instructions and guidelines.
- Ensure that your workspace is clean and organized to prevent accidents.
- Keep the product out of reach of children and vulnerable individuals.
- Use personal protective equipment (PPE) such as safety glasses and gloves when operating the product.
- Regularly inspect the product for any signs of damage or wear before use.
- Report any unsafe conditions or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Do not exceed the recommended specifications for the product.
- Ensure that the bullet and cartridge case are compatible with the seater.
- Avoid using the product in wet or damp environments.
- Do not modify the product in any way that could compromise safety.
- Always ensure that the seaterhead is securely attached before use.
- Use caution when replacing the seaterhead; ensure the device is powered off and disconnected from any power source if applicable.
- If you experience any difficulties or uncertainties, consult the manual or seek assistance before proceeding.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the working area is welllit and free from clutter.
- Gather all necessary tools and materials before starting the installation.
- Attach the seater with crimp to your reloading press according to the manufacturer's specifications.
- Verify that the thread size is 1 1/4 to ensure proper fit.
- Securely fasten the seater to prevent movement during operation.

### 2. Usage:

- Place the cartridge case in the appropriate position on the reloading press.
- Insert the bullet into the cartridge case, ensuring proper alignment.
- Activate the reloading press to seat the bullet into the case.
- If crimping is desired, adjust the settings to apply the crimp securely.
- After completing the process, inspect the cartridge for proper seating and crimping.
- Store the product in a safe location when not in use.

## **Disposal Instructions**

- Dispose of any unused or defective components in accordance with local regulations.
- Do not dispose of the product in household waste. Check for local recycling programs or hazardous waste disposal sites.
- Ensure that any hazardous materials are handled according to safety regulations.

## **Contact Information for Further Support**

For any inquiries regarding safety or product performance, please reach out to the appropriate support channels provided by the manufacturer.

Thank you for your attention to these safety instructions. Your safety is our priority.
