

Seater with Crimp 1 1/4 - Seater with Crimp 257 Wea Mag

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 1 1/4

Introduction

Thank you for choosing the Seater with Crimp 1 1/4. This product is designed for precision bullet seating with the added option of crimping the cartridge case. To ensure safe and effective use, please read this safety instruction guide thoroughly.

General Safety Guidelines

- Ensure safe use of the Seater with Crimp by following the guidelines below.
- Be aware of the potential hazards associated with reloading ammunition and handle all components safely.
- Always work in a wellventilated area and keep your workspace clean and organized.
- Use personal protective equipment (PPE) such as safety glasses and gloves when operating this product.
- Keep the product out of reach of children and unauthorized users.

Specific Safety Precautions for Use

- Always verify that the Seater with Crimp is compatible with the bullet and cartridge case you are using.
- Inspect the product for any damage or wear before each use. Do not use if damaged.
- Follow the manufacturer's instructions when changing the seaterhead to ensure proper installation.
- Do not exceed the recommended torque settings when adjusting the seaterhead.
- Ensure that the work area is free from distractions and that you are focused while using the product.
- Store the Seater with Crimp in a secure location when not in use.

Instructions for Installation and Usage

1. Installation of the Seater with Crimp:

- Ensure the reloading press is securely mounted and stable.
- Insert the Seater with Crimp into the reloading press according to the manufacturer's instructions.
- Tighten the seater securely to prevent movement during use.

2. Using the Seater with Crimp:

- Load the cartridge case into the press, ensuring it is seated correctly.
- Place the bullet into the cartridge case, aligning it with the guide bushing.
- Engage the press handle to seat the bullet. Ensure that the bullet is seated to the correct depth.
- If crimping is desired, adjust the crimping feature according to the manufacturer's guidelines.
- Inspect the finished cartridge for proper seating and crimping before use.

3. Changing the SeaterHead:

- To change the seaterhead, loosen the retaining screw and carefully remove the existing head.
- Align the new seaterhead with the guide and secure it in place.
- Tighten the retaining screw to ensure the seaterhead is firmly attached.

Disposal Instructions

- Dispose of any damaged or unusable components in accordance with local regulations for hazardous materials.

- Recycle packaging materials where possible to minimize environmental impact.

Contact Information for Further Support

For safety inquiries or assistance, please refer to the manufacturer's contact information provided in the product documentation.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with your Seater with Crimp 1 1/4. Always prioritize safety and compliance with local regulations when reloading ammunition. Thank you for your attention to these important guidelines.
