Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 1 1/4

Introduction

Thank you for choosing the Seater with Crimp 1 1/4. This product is designed to ensure accurate bullet seating while providing the option to crimp the cartridge case. To ensure your safety and the proper use of this product, please read the following safety guidelines carefully.

General Safety Guidelines

- Ensure safe use of the Seater with Crimp by following all instructions provided in this guide.
- Be aware of the potential hazards associated with reloading ammunition, including the risk of injury and damage to property.
- Keep this product out of reach of children and vulnerable individuals who may not understand its use.
- Regularly check for updates or recalls related to this product on the EU Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when using the Seater with Crimp.
- Do not exceed the recommended specifications for the bullet and cartridge case to avoid malfunctions.
- Ensure that the work area is clean and free of distractions to maintain focus while using the product.
- Do not modify the Seater with Crimp in any way, as this may compromise safety and effectiveness.
- Always doublecheck that the seaterhead is securely attached before use.

Instructions for Installation and Usage

1. Installation of Seater Head:

- Select the appropriate seaterhead for the bullet you are using.
- To install, ensure the machine is powered off and follow these steps:
 - Unscrew the existing seaterhead using a wrench.
 - Align the new seaterhead with the mounting point.
 - Tighten securely, ensuring there is no play or movement.

2. Using the Seater with Crimp:

- Place the cartridge case in the designated holder.
- Insert the bullet into the mouth of the cartridge case.
- Adjust the crimp setting according to your desired specification (crimp or no crimp).
- Activate the machine to seat the bullet firmly into the cartridge case.
- Remove the completed cartridge and inspect for proper seating.

3. PostUsage Checks:

- After use, clean the Seater with Crimp to remove any debris or residue.
- Store the product in a dry place, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of the Seater with Crimp in accordance with local regulations regarding electronic waste and reloading equipment.

- Do not dispose of the product in household waste. Instead, take it to a designated recycling facility.

Contact Information for Further Support

For any inquiries regarding safety, usage, or maintenance of the Seater with Crimp, please refer to the manufacturer's contact details provided in the product documentation. Ensure that you have the product model and serial number available for reference.

Please ensure you follow all safety guidelines and instructions to maximize the effectiveness of your Seater with Crimp and to maintain a safe working environment. Thank you for your attention to these important safety measures.
