Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Seater with Crimp 1 1/4 Seater with Crimp 6,5x54 Mauser

## Introduction

Thank you for choosing the Seater with Crimp 1 1/4 Seater with Crimp 6,5x54 Mauser. This product is designed to assist you in the precise seating and crimping of bullets for reloading cartridges. It is essential to follow the safety guidelines and instructions provided in this manual to ensure safe and effective use.

## General Safety Guidelines

- Always read and understand the instructions before using the product.
- Ensure that the workspace is clean, welllit, and free from distractions.
- Keep the product out of reach of children and unauthorized users.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling bullets and cartridges.
- Always inspect the product for any damage or wear before use.
- Familiarize yourself with the potential hazards associated with reloading ammunition.

## Specific Safety Precautions for Use

- Handle all components of the reloading process with care to avoid accidental discharge.
- Always ensure that the bullet is correctly seated to prevent jams or misfires.
- Do not exceed recommended load limits when reloading ammunition.
- Be aware of the proper crimping technique to avoid damaging the cartridge case.
- Never leave the reloading setup unattended while in use.
- Store all reloading components, including the Seater, in a safe and secure location when not in use.

## Instructions for Installation and Usage

### 1. Installation of the Seater:

- Ensure that your reloading press is properly set up and secured.
- Attach the Seater with Crimp to your reloading press using the provided threading (1 1/4).
- Confirm that the Seater is securely fastened before proceeding.

### 2. Using the Seater:

- Select the appropriate seaterhead based on the bullet type you are using.
- Insert the bullet into the cartridge case and place it in the Seater.
- Adjust the seating depth according to your specifications.
- If crimping is required, adjust the crimping feature accordingly.
- Operate the press to seat the bullet firmly and apply the crimp if necessary.

### 3. PostUse Care:

- Clean the Seater after each use to maintain its functionality.
- Inspect the seaterhead for wear and replace if necessary.
- Store the Seater and any accessories in a dry, cool place to prevent damage.

## **Disposal Instructions**

- Follow local regulations for the disposal of reloading components and materials.
- Dispose of any damaged or worn parts in accordance with safety guidelines.
- Do not dispose of ammunition or components in regular household waste.

## **Contact Information for Further Support**

For any questions or concerns regarding the Seater with Crimp 1 1/4 Seater with Crimp 6,5x54 Mauser, please refer to the product manual or consult with a qualified professional in the field of ammunition reloading.

By adhering to these safety guidelines and instructions, you can ensure a safe and effective experience while using the Seater with Crimp 1 1/4 Seater with Crimp 6,5x54 Mauser. Always prioritize safety and be mindful of the responsibilities that come with reloading ammunition.
