Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Seater with Crimp 1 1/4 Seater with Crimp 6,5x65 RWS

## Introduction

Thank you for choosing the Seater with Crimp 1 1/4 Seater with Crimp 6,5x65 RWS. This product is designed for precision bullet seating and crimping. To ensure safe and effective use, please read this safety instruction guide carefully. It provides important information regarding product safety, usage, installation, and disposal.

## General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always inspect the product before use for any signs of damage or wear.
- Use the product only for its intended purpose as described in the manual.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform for any safety concerns related to this product.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the Seater with Crimp.
- Ensure that the work area is clean and free of obstructions to prevent accidents.
- Do not exceed the recommended specifications for bullet types and weights as stated in the product manual.
- Avoid using the product if you are under the influence of drugs or alcohol.
- Ensure proper ventilation in your workspace when using any associated chemicals or lubricants.
- Be cautious of sharp edges and moving parts that may cause injury during operation.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the workbench or surface is stable and secure.
- Attach the Seater with Crimp to the reloading press according to the manufacturer's instructions.
- Verify that the seaterhead is properly secured and aligned with the press.

### 2. Usage:

- Select the appropriate seaterhead for the bullet you are using to improve concentricity.
- Insert the cartridge case into the loading station of the reloading press.
- Place the bullet into the case mouth and ensure it is properly seated in the guide bushing.
- Engage the press handle slowly to seat the bullet. If crimping is desired, adjust the crimping feature as per the instructions.
- After seating, inspect the cartridge to ensure proper bullet seating and crimping.

### 3. PostUsage:

- Clean the Seater with Crimp after use to maintain its condition and functionality.
- Store the product in a dry, safe place away from children and pets.

## **Disposal Instructions**

- Dispose of the Seater with Crimp in accordance with local regulations for hazardous waste.
- Do not dispose of the product in regular household waste.
- If the product is damaged beyond repair, contact local waste management services for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries regarding the product, please refer to the manufacturer's contact details provided in the product manual. It is essential to have access to support for any questions or concerns about the safe use of the Seater with Crimp.

By following these safety instructions, you can ensure a safe and effective experience with the Seater with Crimp 1 1/4 Seater with Crimp 6,5x65 RWS. Thank you for prioritizing safety in your reloading practices.
