Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 1 1/4

Introduction

Thank you for choosing the Seater with Crimp 1 1/4. This product is designed to assist in the precise seating of bullets with the option to crimp, enhancing the accuracy of your ammunition. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that the Seater with Crimp is used in accordance with the manufacturer's instructions.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using this product.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the Seater with Crimp for any signs of wear or damage before use.
- Store the product in a dry and secure location when not in use.
- Be aware of your surroundings and ensure that you are in a safe environment when operating this product.

Specific Safety Precautions for Use

- Always ensure that the bullet is properly seated before crimping to avoid misfires or accidents.
- Do not exceed the recommended pressure limits when using the Seater with Crimp.
- Avoid using this product in wet or damp conditions to prevent electrical hazards.
- Do not modify or attempt to repair the Seater with Crimp yourself. Contact a qualified technician for any repairs.
- Follow all local laws and regulations regarding the use and handling of ammunition.

Instructions for Installation and Usage

1. Installation:

- Ensure that the Seater with Crimp is securely attached to the reloading press.
- Verify that the correct seaterhead is installed for the bullet being used.
- Check that all components are tightened and secure before proceeding.

2. Usage:

- Place the cartridge case in the reloading press and ensure it is properly aligned.
- Insert the bullet into the cartridge case.
- Slowly operate the press to seat the bullet. Ensure that the bullet is guided into the case without resistance.
- If crimping is desired, adjust the seaterhead to apply the appropriate crimp to the mouth of the cartridge case.
- Remove the completed cartridge from the reloading press and inspect it for proper seating and crimping.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of ammunition or components in regular household waste.
- Contact local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product support, please refer to the contact information provided with your product packaging or visit the manufacturer's website.

By following these safety instructions, you can ensure a safe and effective experience with the Seater with Crimp 1 1/4. Thank you for prioritizing safety in your reloading practices.
