Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 1 1/4

Introduction

Thank you for choosing the Seater with Crimp 1 1/4. This product is designed for safe and efficient reloading of ammunition. To ensure your safety and the proper use of this equipment, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always handle ammunition and reloading equipment with care.
- Store the Seater in a dry, secure place away from children and pets.
- Inspect the Seater for any damage before use. Do not use if damaged.
- Use the Seater only for its intended purpose as described in this manual.
- Wear appropriate safety gear, including safety glasses and gloves, while using this product.
- Ensure your work area is welllit and free from clutter.
- Keep a fire extinguisher nearby when working with gunpowder and ammunition.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Risk of injury from improper handling or malfunction.
 - Risk of explosion if used with incorrect components or procedures.
- **Avoiding Hazards:**
 - Follow all manufacturer guidelines for assembly, use, and maintenance.
 - Do not exceed the recommended specifications for bullet types and weights.
 - Ensure that the crimping mechanism is properly adjusted before use.
 - Avoid distractions while using the Seater to maintain focus and control.

Instructions for Installation and Usage

1. Installation:

- Ensure the Seater is mounted securely on your reloading press.
- Check that all components are tight and properly aligned.
- Replace the seaterhead if necessary, ensuring compatibility with the bullet type being used.

2. Usage:

- Prepare your cartridge cases and ensure they are clean and free of obstructions.
- Insert the bullet into the cartridge case and position it under the Seater.
- Engage the press to seat the bullet to the desired depth.
- If crimping is required, adjust the crimping mechanism and proceed with care.
- Inspect each cartridge after seating to ensure proper assembly and crimp.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of ammunition or reloading materials in regular household waste.
- Contact local authorities for guidance on the safe disposal of hazardous materials.

Contact Information for Further Support

For any inquiries or concerns regarding the Seater with Crimp 1 1/4, please refer to the manufacturer's website or customer service for assistance.

By following these safety instructions, you can ensure a safe and efficient reloading experience. Thank you for your attention to these guidelines. Stay safe and enjoy your reloading activities!
