Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 1 1/4

Introduction

Thank you for choosing the Seater with Crimp 1 1/4. This product is designed to provide you with a reliable and efficient way to seat bullets with or without crimping. It is important to follow the safety guidelines and instructions in this manual to ensure safe and effective use.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always read and understand the instructions before use.
- Keep this manual for future reference.
- Store the product in a safe and dry place, away from children and pets.
- Regularly check the product for any signs of wear or damage before use.
- If you notice any defects, do not use the product and contact a qualified technician for assistance.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when operating the product.

Specific Safety Precautions for Use

- Always ensure the work area is welllit and free from clutter.
- Avoid wearing loose clothing or jewelry that may become caught in the product.
- Do not attempt to modify or repair the product yourself; seek professional assistance.
- When seating bullets, maintain a safe distance from the work area to avoid accidents.
- Always follow the manufacturer's recommendations regarding the type of bullets and seaterheads to be used.
- Be aware of the potential hazards associated with reloading ammunition, including the risk of explosion and injury.

Instructions for Installation and Usage

1. Installation

- Ensure the reloading press is securely mounted to a stable surface.
- Attach the seater with crimp to the reloading press according to the manufacturer's instructions.
- Select the appropriate seaterhead for the bullet being used and install it securely.

2. Usage

- Prepare the cartridge case and bullet according to standard reloading practices.
- Place the cartridge case in the designated position on the reloading press.
- Insert the bullet into the cartridge case.
- Adjust the seater to the desired depth for seating the bullet.
- Pull the handle of the reloading press smoothly and steadily to seat the bullet.
- If crimping is required, adjust the seater to apply the crimp after seating the bullet.
- Inspect the finished cartridge for proper seating and crimping.

Disposal Instructions

- Dispose of any unused or defective cartridges and components in accordance with local regulations.
- Do not dispose of ammunition in regular waste. Contact local authorities for guidance on safe disposal.

methods.

- Recycle any metal components where applicable, following local recycling guidelines.

Contact Information for Further Support

For any inquiries or further assistance regarding the Seater with Crimp 1 1/4, please refer to the manufacturer's contact information provided in the product packaging or manual.

Conclusion

By following these safety guidelines and instructions, you can ensure a safe and effective experience using the Seater with Crimp 1 1/4. Always prioritize safety and consult professionals if you have any doubts or questions regarding the use of this product. Thank you for your attention to these important safety measures.
