

Seater with Crimp 1 1/4 - Seater with Crimp 270 WSM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 1 1/4 Seater with Crimp 270 WSM

Introduction

Thank you for purchasing the Seater with Crimp 1 1/4 Seater with Crimp 270 WSM. This product is designed to provide safe and effective bullet seating for your reloading needs. This guide outlines essential safety instructions, proper usage, and disposal information to ensure your safety and the safety of others.

General Safety Guidelines

- Ensure you are familiar with the product and its operation before use.
- Always read and follow the instructions provided in this manual.
- Store the product in a safe, dry place away from children and pets.
- Regularly inspect the product for wear and damage.
- Do not use the product if you notice any signs of damage or malfunction.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Stay informed about product recalls and safety updates via the EU Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses, when using the seater.
- Keep hands and other body parts clear of moving parts during operation.
- Use only recommended bullet types and seater heads for optimal performance.
- Ensure the work area is wellventilated and free from flammable materials.
- Do not exceed the recommended loading specifications for your cartridges.
- Follow proper reloading practices to avoid double charging or undercharging cartridges.

Instructions for Installation and Usage

1. Installation

- Ensure the reloading press is securely mounted and stable.
- Attach the seater head to the press according to the manufacturer's instructions.
- Check that the bullet seating depth is set correctly for the bullet you are using.
- If using the crimp feature, adjust the crimping die as per the specifications in the manual.

2. Usage

- Place the cartridge case in the press and ensure it is properly aligned.
- Insert the bullet into the case mouth, ensuring it is seated straight.
- Engage the press handle to seat the bullet.
- If crimping, follow the same procedure, ensuring the crimp is applied uniformly.
- After completing the seating process, inspect the cartridges for proper seating and crimping.

Disposal Instructions

- Dispose of any damaged or broken parts in accordance with local regulations.
- Ensure that all materials are disposed of in an environmentally friendly manner.
- Do not dispose of the product in household waste. Check for local recycling programs or hazardous waste disposal options.

Contact Information for Further Support

For any questions or concerns regarding the Seater with Crimp 1 1/4 Seater with Crimp 270 WSM, please refer to the manufacturer's website or contact their customer support for assistance.

Thank you for prioritizing safety while using your Seater with Crimp. Enjoy your reloading experience!
