Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 1 1/4 and Seater with Crimp 7.62x39

Introduction

Thank you for choosing the Seater with Crimp 1 1/4 and Seater with Crimp 7.62x39. This product is designed for safe and efficient bullet seating. To ensure your safety and the proper functioning of the product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, including eye protection, when using this product.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for any signs of wear or damage before use.
- Do not modify the product in any way that may compromise its safety.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Handling:** Always handle the Seater with Crimp carefully to avoid accidental discharge or injury.
- **Environment:** Use the product in a wellventilated area, free from distractions and hazards.
- **Crimping:** When using the crimping feature, ensure that the cartridge case is securely held in place to prevent slippage.
- **Bullet Seating:** Make sure that the bullet is properly aligned with the guide bushing to ensure accurate seating.
- **Replacement Parts:** Use only manufacturerapproved seaterheads for replacement to maintain product integrity.
- **Storage:** Store the product in a cool, dry place when not in use to prevent damage.

Instructions for Installation and Usage

1. Installation:

- Ensure the work area is clean and welllit.
- Securely mount the Seater with Crimp to a stable work surface.
- Select the appropriate seaterhead for the bullet being used and install it according to the manufacturer's instructions.
- Check that all components are securely attached before proceeding.

2. Usage:

- Load the cartridge case into the seater, ensuring it is properly aligned.
- If crimping is desired, adjust the seater to the appropriate crimp setting.
- Carefully insert the bullet into the cartridge case, ensuring proper alignment with the guide bushing.
- Activate the seater to seat the bullet firmly into the cartridge case.
- Inspect the finished cartridge for proper seating and crimping.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the product in regular household waste.

- Check with local authorities for proper disposal methods for ammunition components.

Contact Information for Further Support

For any inquiries regarding safety or product support, please refer to the manufacturer's contact information provided with your product packaging.

By following these safety instructions, you can ensure a safer and more effective experience with your Seater with Crimp 1 1/4 and Seater with Crimp 7.62x39. Thank you for your attention to safety.
