

Seater with Crimp 1 1/4 - Seater with Crimp 300 PRC

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 1 1/4

Introduction

Thank you for choosing the Seater with Crimp 1 1/4. This product is designed for safely seating bullets in cartridge cases while providing options for crimping. To ensure your safety and the effective use of this product, please read and follow the instructions outlined in this guide.

General Safety Guidelines

- Always ensure that your workspace is clean and free of clutter before using the Seater.
- Keep the product out of reach of children and vulnerable individuals.
- Use the Seater only for its intended purpose as described in this manual.
- Regularly inspect the Seater for any signs of damage or wear before use.
- If you notice any irregularities, discontinue use immediately and seek assistance.
- Store the Seater in a dry and secure location when not in use.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the Seater.
- Ensure that the Seater is securely mounted to a stable surface before operation.
- Do not exceed the recommended specifications when seating bullets or crimping.
- Avoid placing hands or any body parts near moving parts during operation.
- Be aware of your surroundings and ensure that no one is in close proximity while using the Seater.
- Follow all local regulations and guidelines related to ammunition reloading and safety.

Instructions for Installation and Usage

1. Installation

- Ensure that the work surface is stable and clean.
- Attach the Seater securely to your reloading press according to the manufacturer's instructions.
- Check that the seaterhead is properly installed and functioning.

2. Using the Seater

- Select the appropriate seaterhead for the bullet you are using to enhance accuracy and concentricity.
- Insert the cartridge case into the Seater.
- Place the bullet into the case mouth.
- Operate the reloading press to seat the bullet.
- If crimping is desired, adjust the Seater to apply a crimp to the cartridge case mouth.
- Inspect the finished cartridge for proper seating and crimping.

Disposal Instructions

- Dispose of any unused or defective components in accordance with local regulations.
- Do not throw away any hazardous materials in regular waste. Check local guidelines for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Seater with Crimp 1 1/4, please consult the product manual or contact the manufacturer directly for assistance.

Important Note

- Report any unsafe products or accidents to the relevant authorities.
- Keep updated on recall notices and safety alerts through the EU Safety Gate platform.

By following these safety instructions, you can ensure a safe and effective experience with your Seater with Crimp 1 1/4. Thank you for prioritizing safety in your reloading activities.
