Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 1 1/4

Introduction

Thank you for choosing the Seater with Crimp 1 1/4. This product is designed to assist in the precise seating of bullets while offering the option to crimp the cartridge case. To ensure safe and effective use of this product, please read and follow the safety guidelines and instructions outlined in this manual.

General Safety Guidelines

- Always use the Seater with Crimp according to the manufacturer's instructions.
- Ensure that the product is used in a wellventilated area.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for any signs of wear or damage before use.
- Do not modify the product in any way that may compromise its safety or effectiveness.
- If you encounter any issues or have questions regarding the product, seek assistance from a qualified professional.

Specific Safety Precautions for Use

- Before using the Seater with Crimp, ensure that you are familiar with the operation of your reloading equipment.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling bullets and cartridges.
- Always check that the bullet is seated correctly before proceeding with further loading.
- Be aware of the potential hazards associated with reloading ammunition, including the risk of accidental discharge.
- Store the Seater with Crimp in a dry place, away from direct sunlight and moisture.

Instructions for Installation and Usage

1. Installation:

- Ensure that the reloading press is turned off and unplugged before installation.
- Remove any existing die from the press if necessary.
- Carefully screw the Seater with Crimp into the reloading press until it is securely in place.
- Adjust the seating depth according to your specific requirements.

2. Usage:

- Begin by inserting a cartridge case into the shell holder of the reloading press.
- Place a bullet into the cartridge case mouth.
- Activate the reloading press to seat the bullet. Ensure that the bullet is properly guided by the bushing.
- If crimping is desired, adjust the seaterhead to apply the crimp at the desired location.
- After seating, inspect the cartridge to ensure proper bullet seating and crimping.

Disposal Instructions

- Dispose of any unused or damaged cartridges and components according to local regulations.
- Do not dispose of the Seater with Crimp in regular household waste. Instead, check for local recycling or disposal programs for metal tools and equipment.

Contact Information for Further Support

For any questions or concerns regarding the Seater with Crimp, please consult the manufacturer's website or contact their customer service department for assistance.

Thank you for your attention to these safety instructions. Following these guidelines will help ensure a safe and effective reloading experience with your Seater with Crimp 1 1/4.
