

Seater with Crimp 1 1/4 - Seater with Crimp 338 Federal

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 1 1/4 Seater with Crimp 338 Federal

Introduction

Thank you for choosing the Seater with Crimp 1 1/4 Seater with Crimp 338 Federal. This product is designed to provide precise bullet seating and crimping for your reloading needs. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Keep the product out of reach of children and vulnerable individuals to prevent accidents.
- Regularly inspect the product for any signs of wear or damage before use.
- Do not attempt to modify or repair the product without proper knowledge and tools.

Specific Safety Precautions for Use

- Always ensure the workspace is clean and free from clutter to avoid accidents.
- Use the product in a wellventilated area to minimize exposure to dust and fumes.
- Follow the manufacturer's instructions for bullet seating and crimping to avoid injury or damage to the product.
- Ensure that the bullet is properly aligned in the seater before applying pressure.
- Do not exceed the recommended load specifications for your cartridges.
- In case of a malfunction or if the product is suspected to be unsafe, cease use immediately and contact a qualified technician.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is securely mounted and stable.
- Attach the Seater with Crimp to the reloading press according to the manufacturer's instructions.
- Confirm that the seaterhead is properly installed and tightened.

2. Usage:

- Prepare your cartridge case and bullet according to your reloading specifications.
- Place the cartridge case into the reloading press shell holder.
- Insert the bullet into the case mouth.
- Adjust the seaterhead to the desired depth for bullet seating.
- Slowly operate the reloading press handle to seat the bullet firmly.
- If crimping is desired, follow the instructions to adjust the crimping mechanism and apply the crimp to the cartridge case.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Contact your local waste management authority for proper disposal guidelines.

Contact Information for Further Support

- For questions or concerns regarding the Seater with Crimp 1 1/4 Seater with Crimp 338 Federal, please seek assistance from a qualified professional or refer to the manufacturer's customer support resources.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the Seater with Crimp 1 1/4 Seater with Crimp 338 Federal. Always prioritize safety and consult the manual for additional information on operation and maintenance. Thank you for your attention to these important guidelines.
