

# Seater with Crimp 1 1/4 - Seater with Crimp 338 Norma Mag

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Seater with Crimp 1 1/4

## Introduction

Thank you for choosing the Seater with Crimp 1 1/4. This product is designed to help you accurately seat bullets while providing the option to crimp the cartridge case. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Always use the Seater with Crimp in accordance with the manufacturer's instructions.
- Ensure that the product is used in a wellventilated area to avoid inhaling any potentially harmful substances.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for any signs of wear or damage.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates regarding this product on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Risk of Injury:** The Seater with Crimp involves sharp components. Handle with care to avoid cuts or punctures.
- **Proper Calibration:** Ensure that the seaterhead is correctly calibrated for the bullet being used to maintain accuracy and prevent malfunctions.
- **Crimping Caution:** If using the crimp feature, ensure that it is set properly to avoid damaging the cartridge case or affecting bullet performance.
- **Personal Protective Equipment:** It is recommended to wear safety glasses and gloves while using this product to protect against debris and sharp edges.
- **Avoid Overloading:** Do not exceed the recommended specifications for the Seater with Crimp to prevent damage and ensure safe operation.

## Instructions for Installation and Usage

### 1. Setup:

- Ensure that the work area is clean and free of obstructions.
- Securely mount the Seater with Crimp to a stable work surface.
- Check that all components are tightly fastened before use.

### 2. Bullet Seating:

- Select the appropriate seaterhead based on the bullet type.
- Insert the bullet into the guide bushing of the seater.
- Slowly lower the seaterhead until the bullet is seated to the desired depth.

### 3. Crimping:

- If crimping is desired, adjust the seaterhead to the crimp position.
- Carefully apply pressure to crimp the mouth of the cartridge case.
- Inspect the crimp to ensure it is uniform and secure.

### 4. Postusage:

- After use, clean the Seater with Crimp to remove any debris or residues.
- Store the product in a safe location, away from children and unauthorized users.

## **Disposal Instructions**

- Dispose of the Seater with Crimp responsibly, following local regulations for the disposal of mechanical equipment.
- If the product is damaged beyond repair, ensure that it is rendered unusable before disposal to prevent accidental use.

## **Contact Information for Further Support**

For any inquiries regarding the Seater with Crimp or safety concerns, please refer to the manufacturer's contact information provided in the product manual or on the packaging.

By following these guidelines, you can ensure a safe and effective experience with your Seater with Crimp 1 1/4. Thank you for your attention to these important safety instructions.
